

## RIVER AT CAIRO IS STILL RISING

Ohio River Has Passed 54  
Foot Stage—Trouble Re-  
ported in Other Cities

## MOUND CITY IN DANGER

Alarming Reports Have Been  
Received of Situation in City  
8 Miles Above Cairo

## THRILLING STORIES ARE TOLD

CAIRO, ILL., APRIL 2.—With the  
highest flood waters passing Cairo in  
the Ohio river tonight, the city is in  
a state of expectancy never before  
experienced here.

The river gauge at 6:30 stood at  
54.4 and rising, a stage three-tenths  
of an inch higher than any previous  
record.

Nearly every hour brought reports  
of trouble in other cities, the verifica-  
tion of which were impossible from this  
isolated town.

One of the most thrilling of the  
stories to reach here was brought by  
Captain S. A. Martin, regimental  
quartermaster, and Captain H. A.  
Jamison, of the Sixth Missouri National  
Guard. They were rescued  
from a section of levee which broke  
away at Birds Point, Mo., just be-  
low here, in a launch and brought  
here. Thirty-six of their men, they  
said, are now on the levee section  
which is 200 yards long and ten  
feet wide and floating down the Mis-  
sissippi. Commander McMunn of the  
naval reserves, at once arranged for  
a steam launch and started out to  
rescue the Missouri soldiers. A pilot  
who understands the river course was  
taken along to guide the reserves.  
There is a swift current in the river  
and the safety of the men is causing  
their commanding officers much  
worry. The regiment was on mili-  
tary duty at the town, which has  
been threatened for several days by  
the high waters in the Ohio river.  
A story to the effect that half of  
Paducah, Ky., was inundated also  
reached the office of the Cairo bul-  
letin through Edwin Bond, superin-  
tendent of an insurance company,  
who received a telegram from a  
friend there. There was no verifica-  
tion of the story up to a late hour at  
Villa Ridge, Ill.

Investigates Mount City.  
Alarming reports from Mount  
City, Ill., 8 miles above Cairo, and  
standing in a curve of the river, led  
to a commission of investigation be-  
ing sent there to look into conditions  
on order from Adjutant General  
Dickson at Springfield.

The levee against the Ohio ex-  
tended around three sides of the  
town while the Cache river runs  
along the remaining side. This is  
also held back by a levee not be-  
cause of the size of this stream  
itself but the waters of the Ohio in  
flood times back up in it and make a  
dangerous situation. Col. S. O.  
Tripp, Illinois quartermaster gen-  
eral was in charge of the investiga-  
tion today and was accompanied by  
Lieutenant Colonel Ryman of the  
fourth regiment I. N. G., and Com-  
mander William McMunn of the Chi-  
cago naval reserves. Colonel Tripp  
said that while conditions there are  
unsafe, immediate danger is not ex-  
pected. "We found the levee in a  
shaky condition back of the town,"  
he said, "and in case of the water  
breaking over into the town the only  
place of safety for the six hundred  
persons there will be in the second  
story of the court house, considered  
the safest building in the town."

Telephone Wires Down.  
"The place is completely cut off  
from railroad connection and has no  
way of communicating with the out-  
side world. Late today even the  
telephone and telegraph wires failed  
to the place."

"The two companies of militia  
there have the situation well in  
hand and the work of bulk-heading  
is proceeding as well as possible."

"We have arranged a despatch  
boat service between Cairo and  
Mound City which will be in charge  
of Commander McMunn and several  
trips a day will be made in motor  
boats."

"By a despatch boat service we  
will be quickly informed of any  
disaster and can reach there from  
Cairo in a short time. For rescue  
work should there be occasion for  
it." Colonel Tripp and his party  
carried a big supply of food and  
drinking water for the soldiers or  
others in need of it. The supply will  
be replenished from day to day he  
said. As soon as he returned he  
made his report to the adjutant gen-  
eral according to the above lines.  
The miscalculations which have  
been made from day to day as to  
the probable time the crest of the  
flood would reach here were smug-  
gered down tonight for the predic-  
tion that it would reach here not  
later than tomorrow and this pre-  
diction was upset tonight by an of-

## FINANCIAL AID BADLY NEEDED IN INDIANA

HUNDREDS OF THOUSANDS WANTED  
IN INDIANAPOLIS ALONE

Each Family Will Require An Av-  
erage of at Least \$100, According  
To Report of Committee After  
Meeting Held To Discuss Plans To  
Raise Funds.

INDIANAPOLIS, APRIL 2.—Hun-  
dreds of thousands of dollars are  
needed to relieve suffering among  
the flood refugees in Indianapolis, ac-  
cording to the report of the general  
relief committee made late today at  
a meeting in Mayor Shank's office.  
Three thousand families have lost  
their house furnishings, and it will  
require an average of at least \$100  
for each family, the committee re-  
ported.

Hundreds of men are needed to  
clear away the filth left by the flood  
and clean up the homes, according  
to committee members. Plans for  
raising a vast sum of money, to be  
made available immediately to the  
sufferers were discussed and it was  
decided to start popular subscriptions  
and designate plates for the con-  
tributions.

Not Guessing At Statistics.  
"We are not guessing at these sta-  
tistics," said Joseph C. Schaaf, one  
of the investigators for the commit-  
tee. "The flood victims are helpless.  
They need money and need immedi-  
ately. The men are trying to hold  
their jobs and let the women clean  
up the homes, and it is a disheart-  
ening task for which many are not  
physically able. Give them money  
immediately so they can pile their  
water soaked mattresses and other  
furniture in the street and touch a  
match to it. That will give them a  
new heart."

Mr. Schaaf increased his donation  
by \$1,000 and several other members  
of the committee did like-wise. The  
work of scraping mud and clearing  
away debris in West Indianapolis pro-  
gressed rapidly today.

Governor Receives Money Appeals.  
Appeals from over state poured  
in on Governor Ralston today. Ter-  
re Haute sent a committee asking  
that \$75,000 be appropriated to help  
rebuild the houses destroyed by the  
tornado which preceded the floods.  
Peru and Logansport also asked for  
state aid. The governor said he  
would ask the National Red Cross to  
send an investigator to learn just  
what help was needed.

Dr. J. O. Cobb, in charge of the  
federal work in Indiana, returned  
from Brookville today and said he  
believed the flood situation in the  
state excepting the "rocket" would  
be under control within two days.

## ROME PAYS LAST FAREWELL TO AMERICAN FINANCIER

Body of J. Pierpont Morgan Starts  
On Its Long Journey to the United  
States—Physicians Issue State-  
ment.

ROME, APRIL 2.—The Eternal  
city gave its last farewell to J.  
Pierpont Morgan whose body was  
conveyed this evening from the  
Grand hotel to the railway station  
and there placed aboard a train for  
Havre. It will be transported to the  
United States by a steamer, probably  
the France, sailing for New York  
next Saturday.

The funeral procession to the  
depot was impressive in its sim-  
plicity. The hearse was followed by  
carriages in which rode Mr. and Mrs.  
Herbert L. Satterlee, the American  
ambassador, Thomas J. O'Brien,  
the staff of the embassy, the at-  
tending physicians, Dr. Nelson of the  
American church and a few friends.  
Platoons of municipal guards acted  
as an escort. The people in the  
streets raised their hats as the  
cortege passed.

The physicians who were in at-  
tendance on Mr. Morgan issued the  
following statement today:

"When Mr. Morgan left New York  
he was a very tired man, physically  
and mentally. Digestion and  
nutrition were impaired. It was  
hoped that his usual trip to Egypt  
would be of great benefit, giving him  
rest and building up the nervous  
force, especially as he had no  
organic disease. His appetite, how-  
ever, failed and consequently his  
strength and weight did not improve.  
"Mr. Morgan contracted a severe  
cold while in Egypt, which further  
weakened him. A state of mental  
depression and feebleness developed.  
He arrived at Cairo in a very run-  
down condition, but during three  
weeks in Cairo he improved mental-  
ly and physically, his powers on  
concentration and memory showing  
no impairment. The trip to Rome  
did not fatigue him and he con-  
tinued to gain slowly for ten days.  
"A week before his death his  
strength began to fail. He was put  
to bed Wednesday afternoon (March  
26.) He became delirious and ex-  
treme exhaustion followed. This  
continued until Sunday evening  
when he passed into a state of coma.  
He died at 12:05 p. m., Monday."

GERMANS EXPRESS SYMPATHY.  
Berlin, April 2.—The recent flood  
in Ohio and Indiana were referred  
to at the opening of the imperial  
parliament today. Johannus  
Kaempf, the speaker, expressed the  
sympathy of the German people "in  
this great misfortune from which a  
part of the United States has suffer-  
ed."

He continued:  
"The German people wishes to  
offer its profound sympathy to this  
friendly nation in its visitation."  
The members of the house stood  
up in their places while he spoke,

## INTRODUCE BILL FOR CHARTER CONVENTION

TO GIVE CHICAGO POWER TO CALL  
CONVENTION FOR NEW CHARTER

Each Ward Would Send Three Dele-  
gates For Purpose of Drafting  
New Measure—Delegates to be  
Chosen at Special Election.

SPRINGFIELD, ILL., APRIL 2.—  
A bill giving the city of Chicago  
power to call a charter convention,  
for the purpose of drafting a new  
city charter, was introduced in the  
house today. Delegates are to be  
chosen at a special election to be  
held within two years. A maximum  
salary of \$2,000 is provided and  
\$25,000 is appropriated to defray  
the expenses of the convention. The  
charter as drafted by the convention  
is then to be submitted to the legis-  
lature for ratification and to a refer-  
endum vote of the citizens of Chi-  
cago. Upon the demand of one quar-  
ter of the delegates a substitute for  
any section of the charter as adopted  
by the convention may be put upon  
the referendum ballot to be voted up-  
on by the people.

House Steering Committee.  
The Republican house steering  
committee today announced that  
Butts, chairman; Shanahan, King,  
Shurtliff, Kleeman, Wilson, Dodge,  
Abbott, Holaday, Pervier, Provine,  
Hull, Watson, Jones, Campbell,  
Flagg, Kirkpatrick, Lyon and Scanlan.

The Republican house committee  
on rights of the minority was an-  
nounced as follows:  
Smejkal, chairman; Shepard, Hol-  
lenbeck, McNichols, Catlin, Blaha,  
Shaver, Roos, Simpson, Miller, At-  
wood, Barker, Thomas, Curran,  
Keck, Burres, McKinley, Lovejoy,  
Rowe and McCabe.

Many Bills Introduced.  
The state legislature introduced in both  
houses today, including these pre-  
sented in the house.

Admitting to the home wives of  
inmates of Soldiers' and Sailors'  
Home at Quincy, married prior to  
1900, or if soldiers' or sailors' wid-  
ows prior to that time, in case they  
are 50 years old or more, Soldiers'  
and Sailors' Home and Soldiers' Or-  
phans' Home.

Prohibiting state courts from is-  
suing injunctions restraining labor  
organizations from paying strike  
benefits.

Making the dissemination of un-  
true and misleading advertisements  
a misdemeanor punishable by a fine  
of from \$10 to \$500 for each of-  
fense. Judiciary.

A meeting of the senate committee  
on education was held this afternoon  
and several bills were considered but  
no action of any sort was taken.  
It has been agreed that final action  
in school book bills and other mea-  
sures is to be taken on Wednesday  
of next week.

Senator Cleary's county option bill  
was taken up by the senate commit-  
tee on license and miscellany this  
afternoon. It was decided to have a  
public hearing on the measure next  
Wednesday night. Both sides will  
be heard at that time.

In order to prevent the senate  
white slave committee from further  
junketing outside of the state, the  
house appropriation committee to-  
day amended the bill appropriating  
\$10,000 for the expenses of the in-  
vestigation so as to provide that the  
inquiry does not extend beyond the  
state and that the money be ex-  
pended within the state.

Republican Chairmanships.  
According to reports here tonight,  
the Republicans of the house will  
have 29 chairmanships. These in-  
clude besides those already an-  
nounced:

Banks and Banking—Norman J.  
Flagg, of Moro.

Livestock and Dairying—Frank W.  
Shepard, Elgin.

Railroads—Robert S. Jones, Flora,  
County and township organization—  
William T. Hollenbeck, Marsh-  
all.

Drainage and waterways—(Deep  
waterway)—Benton F. Kleeman, Chi-  
cago.

Good Roads—Alfred M. Abbott,  
Morrison.

Insurance—William M. Scanlan,  
Peru.

Temperance—George H. Wilson,  
Quincy.

Soldiers and sailors home—  
Thomas Campbell, Rock Island.

To visit charitable institutions—  
William P. Holaday, Danville.

Governor Dunne's Appointments.  
Governor Dunne this morning sent  
a batch of five appointments to the  
senate for confirmation. The list  
includes several of the most impor-  
tant positions at the command of  
the governor, as follows:

State architect—James B. Dibelka,  
Chicago; vice, W. Carby Zimmerman  
of Chicago.

Member and president board of  
administration—Fred J. Kern of  
Belleville; vice, L. Y. Sherman of  
Springfield.

Member and president Rivers and  
Lakes commission—Arthur W.  
Charles of Carmi; vice, R. R. Mc-  
Cormick of Chicago.

Member state board of pardons—  
Lewis Green Stevenson of Bloomington;  
vice, Charles E. Eckhart of  
Tuscola.

Chief grain inspector—John P.  
Gibbons of Chicago; vice, W. Scott  
Cowan of Carroll county.

FRENCH AVIATOR KILLED.  
Amiens, France, April 2.—A mili-  
tary aviator, Sergeant Phansoux,  
was killed today. He had just ar-  
rived from Rheims and made an er-  
ror of judgment in landing. The  
machine tilted and the aviator was  
thrown out.

## LITTLE IS LEFT OF SHAWNEETOWN

Strong Wind Completes  
Destruction Begun by  
Opening of South Levee

## GALE STRIKES RIVER

Ohio River is Lashed Into Roll-  
ing Sea by Forty-Five Mile  
an Hour Wind

## NO FATALITIES REPORTED

SHAWNEETOWN, ILL., APRIL 2.  
By Boat to Dekoven, Ky.—All that  
is left tonight of Shawneetown is the  
few substantial brick and stone  
buildings behind the main levee and  
they are considered unsafe. Less  
than 100 persons remain in the  
former town of 3,000, and they are  
perched in the second and third  
stories of Main street buildings,  
structures on the highest street in  
the town. A strong wind completed  
the destruction begun by the open-  
ing of the south levee yesterday.

The water within the levees was up  
to the 57 foot level of the Ohio river.  
The 5 mile an hour gale lashed the  
broad Ohio into a rolling, tossing  
sea, until breakers dashed over the  
already submerged valleys. Frame  
buildings felt to pieces and the  
more substantial structures were  
shaken. A break in the northern  
levee today also added to the danger,  
the full force of the Ohio striking  
the north levee. A rift in the em-  
bankment rapidly enlarged and soon  
a swift current was rushing through  
the residence section carrying all be-  
fore it. By night the Ohio was at  
a stage of between 45 and 50 feet,  
an accurate reading being impossible  
because of the huge swells.

Levees Are Submerged.  
The entire north and east levees  
are submerged. The levee hotels,  
heretofore considered safe from  
flood attack, were deserted by the  
several hundred men who had pre-  
ferred them to refuge with their  
families in the highest buildings in  
the town.

The state guards were transferred  
from their camps to the refuge  
camps on the hills when the levees  
began to crumble before the wind  
and water. During the six hours  
storm the big yawls of the naval  
reserves removed several families to  
safety. There have been no  
fatalities but several narrow escapes  
were reported.

Property damage will run into the  
millions, three millions being a con-  
servative estimate.

Water Soon Fills Town.  
The cutting of the levee yesterday  
afternoon resulted in the town being  
flooded with water within three hours.  
A gap was made with dynamite a  
mile west of the town. The water  
poured through in torrents uproot-  
ing trees and everything else in its  
way. Two hundred yards of the  
levee were washed away. Waves  
dashed thirty feet in the air and  
spread as a great flood.

The water came into the heart of  
the town gradually and from the cut-  
ting of the levee there was little  
destruction. Among the small  
houses in the outskirts, every thing  
was a total loss. The fair grounds,  
half a mile from where the levee  
was cut, were destroyed and the  
buildings there including a large  
amphitheater are a total wreck.

Inhabitants Were Warned.  
Several hours before the levee was  
cut, the inhabitants of the town  
were warned by the ringing of the  
church bells, and all were in  
places of safety when the flood was  
let loose.

A boy spread an alarm that the  
north levee had broken. This re-  
port, however, proved to be false.

A crew of the ninth division of the  
Illinois naval reserves in command  
of Lieut. J. D. Maxfield, manned a  
naval boat and went into the worst  
of the flood looking for anyone who  
might be in distress.

Their boat several times was dash-  
ed by the waves against buildings  
and several had narrow escapes.

In one house ten persons were  
rescued. Many men became hyster-  
ical during the excitement and it was  
necessary to put them under guard.

All Communication Cut Off.  
All means of communication with  
the city have been cut off except by  
boats, and it is difficult for them to  
run as there are no landings.

Food supplies are running low  
and within two or three days they  
will be entirely exhausted. Boats  
are badly needed. The Riverside  
hotel early today was housing 500  
people. Last night the levee where  
the troops were camped was under  
water and 200 of them were taken  
to the hotel.

Postmaster Spivey has established  
a temporary postoffice in the second  
story of a brick building and he de-  
livers what mail comes to the office  
to people who come in boats to the  
window. D. E. Fraley, cashier of  
the National Bank, is operating the

## OLSON MAINTAINS STOLID DEMEANOR

DARLING'S BLOODSTAINED CLOTHES  
HAVE NO EFFECT ON PROFESSOR

Government Employee Was Principal  
Witness and Related Olson's Al-  
lege Confession Made Him the  
Night of the Murder.

ST. PAUL, MINN., APRIL 2.—  
To look upon the bloodstained clothes  
taken from the body of Clyde N. Dar-  
ling which were exhibited in court  
today apparently had little effect on  
Professor Oscar Olson, formerly of  
the University of Minnesota. Olson  
school. Professor Olson is charged  
with the killing of Darling. Olson  
today maintained the stolidism that  
has characterized his demeanor since  
the murder.

Mrs. Olson, whose admissions to  
her husband, the state claims, caused  
the fatal shooting was in court for  
the first time today.

A. L. Anderson, a government em-  
ployee was the principal witness to-  
day, he related how he was called  
from his bed at night by Professor  
Olson, who said to him:

"I have killed a man who wrecked  
my home," Anderson testified that  
he accompanied Olson to the latter's  
home and as he stepped into a sum-  
mer kitchen the rays of the lantern  
dimly outlined Darling's body.

"Smoke was coming from the fig-  
ure, and leaning over I extinguished  
fire in the clothing which was caus-  
ed by powder," Anderson testi-  
fied.

"Olson, this is horrible," Ander-  
son testified he said.

"It took me years to make this  
happy home, and my work was torn  
down by that man and I am glad I  
killed him," Olson replied, ac-  
cording to Anderson's testimony.

Anderson then asked Olson if he  
should notify the police and the lat-  
ter consented to this without resem-  
bling Olson kept watch over the  
body until the police arrived Ander-  
son testified.

## LOOK FOR MORE TROUBLE IN LOWER OHIO VALLEY

Provisions, Tents and Army Flood  
Relief Experts Are Being Hurried  
To Southern Points.

Washington, April 2.—The Ohio  
flood having reached its crest at  
Cincinnati started to recede. Major  
Normoyle, in charge of the re-  
lief operations at that post to day  
made further plans to cope with the  
situation as the crest moves into the  
lower Ohio Valley to the south.

Major Normoyle, in a report received  
by the Major General Wood, chief  
of staff of the army, who returned to  
day with Secretary Garrison from a  
trip into the flood area. In order  
to keep relief measures ahead of  
the flood, Major Normoyle said he  
had ordered provisions, tents and  
army flood relief experts into Car-  
lottesville, Charleston and  
Madrid, Missouri. Hickman, Colum-  
bia and Wickliffe, Ky., Dyersburg  
and Lipton, Tenn., Helena, Ark.,  
as well as Memphis.

"Major Logan, as advance scout,"  
Major Normoyle report added, "will  
get all possible information and we  
will throw officers and non-commis-  
sioned officers where they can do  
the best work in anticipation of  
trouble which will soon come through  
out the valley."

Special From Chicago.  
Chicago, April 2.—A special  
train of ten cars loaded with 115,  
000 rations were shipped from here  
to the flood district today by army  
officials. Eight cars are consigned to  
Dayton, O., and two to Logansport,  
Ind.

Another special loaded with 100,  
000 rations will be shipped to Dayton  
O., tomorrow.

Students Give \$1,156.  
Madison, Wis., April 2.—Students  
of the University of Wisconsin have  
contributed \$1,156 for the relief of  
flood sufferers. The amount was  
sent to the Red Cross officials to day.

JUDGE HODGE DIES SUDDENLY.  
Well Known Editor and Jurist of  
Pana Passes Away Tuesday.

Pana, Ill., April 2.—Judge J. P.  
Hodge, aged 62 years, a well known  
editor and judge of the Pana city  
court, died suddenly today from a  
stroke of paralysis. He had served  
eight years on the bench and prior  
to that time was editor of the  
Vincennes Commercial, Beardstown  
Star, Alton Telegraph, Assumption  
Tribune, and Pana News. The burial  
will be at Golconda, Ill.

J. H. Smith, aged 83 years, a  
pioneer resident, fell down stairs  
today and was killed.

CHIPPewa RIVER  
OVERFLOWING

Chippewa Falls, Wis., April 2.—  
The Chippewa River is on a rampage.  
Ice has formed a dam one mile above  
the city and another 150 miles above.  
Heavy rains during the night increas-  
ed streams until the water is now over-  
flowing the banks and considerable  
surrounding country is submerged.  
There is no immediate danger ex-  
pected in the cities.

bank from the second story of the  
building.

In the home of the local Catholic  
priest, seventeen pianos have been  
stored. All now are in two feet of  
water, and will be entirely covered  
by morning.

More than 500 people are camp-  
ed in tents on the hills west of town.  
The camp is under the supervision  
of the city authorities. Fifty people  
were housed in the school house,

## POWERS INTERFERE WITH MONTENEGRO

MAY BE COMPELLED TO GIVE UP  
FRUITS OF FIVE MONTHS FIGHTING

Montenegrins With the Help of the  
Servians Are Now Practically in  
Command of Tarabosch, the Key  
to Scutari.

LONDON, APRIL 2.—Just as  
Montenegro has scored her first real  
success by getting a foothold at Tar-  
abosch, the key to Scutari, the war-  
ships of the powers are gathering  
along the coast to compel her to  
give up the most precious fruits of  
five months' fighting.

After a series of desperate en-  
gagements the Montenegrins, assist-  
ed by the Servians, are practically in  
command of Tarabosch. Simultane-  
ously with the arrival of this news  
came the further information that  
Austrian warships are anchored off  
Antivari and that British and Italian  
warships are on their way to join  
them for the purpose of making a  
demonstration which is approved by  
all the powers, not excepting Russia.

Will Have to Deal With Servia.  
Should the demonstration prove  
ineffective, it is expected the Monte-  
negrin ports of Antivari and Duieno  
will be occupied. When the Monte-  
negrin trouble is out of the way, it  
is likely that the powers will have  
to deal with Servia. She has in-  
formed the British minister that it  
was impossible to withdraw her  
troops from Scutari, as Servia was  
bound to Montenegro until peace has  
been signed, and that any drawing  
back at the present time would be  
the death knell for the Balkan alli-  
ance.

Servia too is reported to be pre-  
paring for the permanent occupation  
of Durazzo. This action would be  
directly against the decision of the  
powers.

Elsewhere matters are moving  
smoothly. An agreement has prac-  
tically been reached with regard to  
the boundary between Turkey and  
Bulgaria, although Bulgaria is guard-  
ing against any slip in the peace  
negotiations and is moving virtually  
the whole of her Adrianople army  
to Tchatalja. The captured town  
will be left in possession of Ger-  
manies.

A partial agreement also is re-  
ported as having been arranged be-  
tween Bulgaria and Roumania, the  
latter getting Silistria.

Capture Tarabosch Fort.  
Cettinje, April 2, 6:20 p. m.—  
Great Tarabosch Fort, which for  
months has held the allies off Scutari,  
is now practically in the hands  
of the Montenegrins, thanks to the  
sacrifice of 200 bomb-throwers, ev-  
eryone of whom lost his life in a  
last desperate effort to clear the way  
to the town, for the possession of  
which Montenegro is ready to give  
up everything.

These bomb-throwers were all  
picked men, chosen from several bat-  
talions. Clambering up the moun-  
tain side under a murderous fire  
from the Turkish guns, they cut the  
wire entanglements, and getting to  
close quarters threw bombs among  
the Turks, thus opening the way for  
the storming party. Not one of the  
bomb-throwers returned, but they  
had accomplished their object and  
the Montenegrin infantry, following  
close upon them, charged the  
trenches.

Bloody Hand to Hand Fight.  
The Turks held their ground and  
a desperate and bloody hand-to-hand  
fight, lasting an hour and ending in  
victory for the Montenegrins, who  
lost 300 men killed and wounded  
two.

The tactics followed particularly  
in regard to the use of the bomb-  
throwers were similar to those adopt-  
ed in the capture of Adrianople.  
But in the advance on Adrianople  
the soldiers who cut and divided the  
wire entanglements surrounding the  
fort were clad in cuirasses and pro-  
vided with shields.

At Tarabosch the rough mountain-  
side made it necessary for the Monte-  
negrins to dispense with all im-  
pediments.

Austrian Ships Arrive.  
Four Austrian warships arrived in  
Montenegrin waters early this morn-  
ing. They are anchored about ten  
miles off shore between Antivari and  
Duligno.

DR. BAIBOCK APPOINTED DEAN  
Chicago, April 2.—Dr. Kendrick  
Charles Baibock, expert in higher  
education in the bureau of educa-  
tion, Washington, D. C., it was an-  
nounced here today, has been ap-  
pointed dean of the College of Lib-  
eral Arts and sciences in the Uni-  
versity of Illinois.

WEATHER  
AND TEMPERATURES.

Washington, April 2.—For Illinois:  
Showers and thunderstorms Thurs-  
day, cooler by night; Friday probably  
clear and cooler; brisk and high  
shifting winds.

Temperatures.  
Chicago, April 2.—Current, maxi-  
mum and minimum temperatures to-  
day were:

Current, High, Low.

Boston . . . . . 48 54 34

Buffalo . . . . . 46 46 28

New York . . . . . 52 56 40

## POPULAR YOUNG PEOPLE WEDDED

MISS EMELINE WARFIELD BROWN AN APRIL BRIDE.

Becomes the Wife of Mr. George Julius Orear at Ceremony Said in Centenary M. E. Church—Reception at Home of Bride's Parents—Will Reside at Colonial Inn.

The marriage of Miss Emeline Warfield Brown and Mr. George Julius Orear took place Wednesday evening at 7 o'clock at Centenary M. E. church, Dr. F. A. McCarty officiating. The members of the bridal party were: Maid of honor, Miss Edith Jordan; matron of honor, Mrs. George B. Conover; bridesmaids, Miss Eleanor Capps, Miss Martha Hayden, Miss Margaret Carlton; best man, Mr. Marcy Osborne; ushers and groomsmen, Dr. Allen King, Mr. Lloyd Brown, Mr. Wilfred Ayers, Mr. Chester Wilcox; master of ceremonies, William Barr Brown, Jr. Following the wedding a reception was given at the home of the bride's parents.

The popularity of the bride and groom and the prominence of the families marked the wedding as the leading social event of the spring season. The spirit of youth and beauty, with a touch of simplicity and bursting springtime, all lent a charm of loveliness to the occasion which will not soon be forgotten.

The decorations in the church were especially beautiful. A platform had been constructed at the altar, upon which was placed a large bed of lilies, while above and at the sides were palms, ferns and smilax, artistically arranged. On either side of the platform were two tall green baskets, filled with white flowers tied with white gauze. Ferns and palms were also placed in the various windows and on the railing of the balcony.

Preceding the ceremony a musical program was given by Mrs. Barr Brown, vocalist, a sister of the bride, and J. Philip Read, organist. Mrs. Brown's singing was artistic and the organ numbers splendidly given. The program follows:

Organ—  
"Chorale" ..... Bartlett  
Solo—  
(a) "O, Holy Night" ..... Ronald  
(b) "San Toi" ..... D'Hardelot  
Organ—  
"Idyll" ..... Kinder  
Solo—  
(a) "Bacchante" ..... Offenbach  
(b) "Thou Art Mine" ..... Henschel  
Organ—  
"To a Wild Rose" ..... MacDowell  
Solo—  
"A Perfect Day" ..... Bond  
Entrance of Bridal Parties.

The wedding party appeared as the organist played the wedding march from Lohengrin, entrance being made from the west aisle. The groomsmen, Dr. Allen King and Mr. Wilfred Ayers, took their places on the right side of the altar and Mr. Lloyd Brown, a brother of the bride, and Mr. Chester Wilcox of Quincy on the left side of the altar.

Miss Edith Jordan was maid of honor. She wore a gown of American beauty brocade satin, trimmed with white chiffon and shadow lace. Mrs. George B. Conover of Buffalo, Ill., a sister of the bride, was matron of honor. She wore a gown of white watered meteor trimmed with lace of the American shades. The bridesmaids and the order of entrance were Miss Eleanor Capps, Miss Martha Hayden and Miss Margaret Carlton of Cleveland, O. They wore gowns of American brocade crepe, the front of the dresses being white chiffon and shadow lace. All the young ladies carried American beauty roses tied with large bows of red ribbons.

The bride entered on the arm of her father. Her gown was a beautiful creation of cream satin crepe, with court train, trimmed in Duchess lace. She wore a wedding veil of lace and carried a shower bouquet of lilies of the valley and maiden hair fern, tied with white satin ribbons.

The groom entered from the west door, accompanied by his best man, Mr. Marcy Osborne, meeting the bride and her father in front of the altar.

The ceremony was said in a most impressive manner by Dr. F. A. McCarty, district superintendent, the ring service of the Methodist ritual being used. After the vows were pledged a short prayer was offered in behalf of the young people.

During the ceremony Mr. Read played softly the "Even Song" by Johnston and the recessional was made from the east aisle, by the use of Mendelssohn's wedding march.

**Young People Popular.**  
The bride is the younger daughter of Mr. and Mrs. William Barr Brown, Sr., and has practically spent her entire life in Jacksonville. She received her literary education at the Illinois Woman's college which was supplemented by one year's study in the Miss Chamberlayne school in Boston. Her musical education was acquired in the Conservatory of Music in this city and also during her school year in Boston. She is quite an accomplished vocalist and has been heard often with much pleasure. She is deservingly popular, being a member of the younger social set of the city. No young woman of Jacksonville has a greater number of friends, both in and out of the city, and her many accomplishments and grace of manner have won her the admiration of everyone. She is a member of Grace M. E. church.

The groom is the only son of Mr. and Mrs. Franklin Orear and has always made this city his home. He attended Whipple Academy and Illinois college in this city and along with his literary training was one of the well known athletes of the school. He has ever manifested a liking for farm life and consequently took a three year course in the agricultural department of the University of Illinois. He is a member

of the Phi Delta Theta fraternity, the Central Christian church and of the Order of Elks, having recently been elected to Exalted Ruler of the Elks, the highest office of the organization. Like his bride, Mr. Orear is quite popular and his jovial disposition and kindness of heart have gained him a wide circle of friends. He is also a young man of business ability and for several years has been engaged in farming with his father, near Orleans.

**Reception at Bride's Home.**  
The reception at the Brown residence, 1309 West State street, was a brilliant affair, three hundred and fifty being present. The house was beautifully decorated and lent a most inviting scene. In the reception room ferns and smilax were used for decorations; in the library, pink carnations with pink candles; in the hall, yellow and green; in the living room, yellow jonquills and ferns and yellow candles.

In the receiving line were Mr. and Mrs. William Barr Brown, Sr., Mr. and Mrs. Franklin Orear, the bride and groom and members of the bridal party.

A beautiful collation was served under the management of Vickery & Merriam, who also arranged the decorations in the dining room which were exquisite.

The table was adorned with yellow daffodils and shasta daisies, with a light at each corner of the table having a chrysanthemum shade. The mantle was banked with jonquills and shasta daisies, with candelabra at either end of the mantle. The wedding favors were double baskets in yellow, decorated with yellow daisies and the beautiful wedding cake boxes contained the new colonial monograms for the letters "B" and "O," each box being tied with a tiny white satin ribbon.

The presents were unusually well chosen and selected, there being very few duplicates, and all most beautiful and handsome.

Mr. and Mrs. Orear left over the Wabash for Springfield and from there will go to Chicago. Before they return from their honeymoon they expect to spend several days in the far south. They will be at home to their friends at Colonial Inn after June 1.

**Guests From Away.**  
The following were among the guests from out of the city: Mr. and Mrs. George B. Conover of Buffalo, Mr. and Mrs. Barr Brown of Island Grove, Mr. and Mrs. B. W. Brown, Mr. and Mrs. Lewis Wiggins, Miss Bessie Riorden and John Merriam of Springfield, Wellington, Hufaker of New Berlin, Mrs. James M. Brown of Madison, Ind., Chester Wilcox, Miss Helen Lewis and Miss Mazie Stahl of Quincy, Mrs. Mary Masters Newcomb and her mother, Mrs. Davis Masters, of Indianapolis, Ind., Miss Ina Harber of Bloomington, Mr. and Mrs. Clark Stevenson, Mr. and Mrs. Bennett and Miss Bennett of Orleans, Edna Sinclair of Ashland, Misses Marguerite and Margorie Merriam of Tallula, Miss Margaret Carlton of Cleveland, O., Mr. and Mrs. Charles Savage and Miss R. Petefish of Virginia, Mrs. Isaac Powers of Terre Haute, Ind., Mrs. McArthur and daughter, Miss Margaret McArthur, of St. Louis, and Robert E. Ball of Kansas City.

**EXAMINE CANAL WALLS.**  
Trustees of Chicago Sanitary District Express Concern Over Their Crumbling Condition.  
Joliet, Ill., April 2.—Three trustees of the sanitary district of Chicago examined the walls of the canal here today and expressed concern over their crumbling condition, which, it was believed, would necessitate increased expenditures in the near future. The discovery was also made that the pollution of the DesPlaines river was caused by a sewer from the Joliet steel plant, and not from the drainage canal, as had been asserted.

**DROVE TO WINCHESTER.**  
C. N. Priest made the trip to Winchester for the K. of P. convention in his Ford car. He was accompanied by Mrs. Priest and their daughter Winnie and while the roads were far from good he made the trip all right. Going his time was one hour and ten minutes and returning one hour. Yesterday Mr. Priest made another trip to Scott county to deliver a Ford car to Mr. Haskell.

**IDENTIFY OMAHA SUICIDE.**  
Woman Who Jumped Into Missouri River Was Wife of Col. J. A. Hull, U. S. A.

Omaha, Neb., April 2.—The woman who Monday night jumped from the Douglas street bridge into the Missouri river and was drowned was identified today as Mrs. Greta Chase Hull, wife of Col. J. A. Hull of the United States army. Col. Hull is a former Congressman J. A. T. Hull of Des Moines, Ia.

Colonel Hull was recently ordered to the Philippines and it is supposed that grief at separation from her husband prompted Mrs. Hull's act.

Colonel and Mrs. Hull were visiting friends in Council Bluffs, when the order came from the war department and Colonel Hull left for the islands last Saturday.

**MAYOR-ELECT CHAMBERLIN OPPOSES GAMBLING.**

East St. Louis Man Announces His Inauguration Day Will be Moving Day For Gamblers.

East St. Louis, Ill., April 2.—Mayor-elect Chamberlin of this city announced today that his inauguration day, May 1, will mark the beginning of a moral clean-up of the town.

"That day," the mayor-elect said, "will be moving day for the gamblers. Gambling has been rampant in East St. Louis, but I propose to get after the gamblers by appointing a police board that will do the work."

Mr. Chamberlin said that he would seek also to curb the social evil, but he indicated that for the present he did not intend to close the saloons on Sunday.

## MONARCH BRAND

Finest Quality—Pure Food Products.

### The Monarch Brand

### Absolutely Pure Olive Oil

Lincoln—Mrs. Gaines Green, Petersburg.

Decatur—Mrs. W. D. Hardy, Taylorville.

Corresponding secretary—Mrs. Ensley Moore, Jacksonville.

Recording secretary—Mrs. H. F. Carriel, Jacksonville.

Treasurer—Mrs. Mary J. Averill, Springfield.

**THE ART OF CORRECT DRESS**

The Fourth Article in a Series of Talks on Correctness in Dress.  
A Subject of Especial Interest Just Now to

**The Young Woman Graduate**

Correctness in dress does not necessarily mean that a great expenditure must be involved in its production. Correctness is not a purchasable commodity, but is brought about by taking advantage of the best resources offered in the line of costuming. Graduation day marks an important epoch in a young woman's life, and the gown worn upon its celebration should be in keeping with the occasion. Harmon's Dry Goods Store, by virtue of the renown it has won as a dress goods center, the logical place to come for the graduation outfit; and the pattern department, where the famous Pictorial Review patterns are sold, shows the latest authorized modes for fashioning the garment. These two departments, through the agency of a talented and helpful sales force, are the most pronounced aids contained in Jacksonville for obtaining correctness in the graduation gown.

**Three Splendid Specials for This Week**

To introduce the graduation buying period we offer for this week only, three very special values in Embroidered Voile. Most every woman is acquainted with the sheerness and splendid adaptability of Voiles for graduation dresses—but a mere printed description such as this can in no way reveal the unusual texture of these fabrics. You must come see them for yourself. The offering consists of

A 45 inch Embroidered Voile at 59c

A 45 inch Embroidered Voile at 79c

## TWO COMPANIES OF MILITIA TO MEREDOSIA

COMPANY B IN COMMAND OF  
CAPTAIN OWEN LEAVES WED-  
NESDAY NIGHT.

Company F of Quincy Also Ordered  
Out By Adjutant Dickson—Leaves  
At Meredosia Endangered—  
Beardstown Threatened, Six  
Blocks Already Under Water.

So alarming has the flood situation at Meredosia become that two companies of militia were ordered to that place Wednesday evening by Adjutant General Dickson. The first company ordered out was Co. B of this city in command of Capt. L. P. Owen, which left this city at 8 o'clock last night. The other, Company F, of Quincy in command of Capt. W. A. Long left for Meredosia on a special train at 11 o'clock Wednesday afternoon and Captain Owen at once began to get his men assembled at the armory, to prepare for service. As it was necessary to purchase rations here before leaving the men were unable to get ready in time for the afternoon train that left here at 5:11 o'clock and they went on a freight train, leaving this city at 8 o'clock and arriving at their destination about two hours later. The men loaded their equipment in an empty box car on the freight and three or four of them rode in it, but nearly all of them went in the caboose.

**Roll Shows Twenty-Seven.**  
Just before starting roll was called and the following answered: Sergeant R. Russell, Sergeant L. P. Burke, Sergeant S. Russell, Corporal Durrell Hatfield, Corporal Williams, Art Armstrong, Edward Alexander, Ross Chapman, H. Dickson, Thomas Hale, Paul Strawn, James Stubblefield, Richard Vasey, Arthur Wilkinson, Max Ball, David Pierson, Shepard, Elmer Flynn, Benjamin Previtt, Theodore A. Airmann, Lloyd Tendek, Edward Buck, M. Elley, E. McKley, James Hennessey, Harry Blundell and Frank Munis. The men were accompanied by two cooks, Lieutenant W. T. Harmon and Sergeant Arthur Kingsley will leave for the flood district this morning at 7:06 o'clock.

Commissioner Irving, who is taking active charge of the work of protecting the levees at Meredosia, expressed no little concern regarding the levee that protects the McGhee drainage and levee district, just across the river from Meredosia. This district stretches along the river for a distance of perhaps seven miles and the levees protect about 25,000 acres of land.

**Water Seeping Through Levee.**  
Mr. Irving stated Wednesday night that the water had begun seeping through the levee in several places, and they did not know how long it would hold out. He said that the men had not given up hope and were working day and night in an effort to save the levee.

At 8 o'clock last night the river stood at 22.2 feet, having risen eight inches in the previous twenty-four hours. Nearly all of the families living in the McGhee drainage district have moved to places of safety, as the ground that is now protected would be covered from 8 to 18 feet deep should the levee break. The strong wind that kept beating the waves against the levee was a factor that aided greatly in damaging the levee, and it is impossible to determine just how much of the structure has been undermined in this manner. If the levee gives way the main loss will be to the wheat and the delay to farmers in working their fields.

**Section North of Town Endangered.**  
At eight o'clock Wednesday night A. C. Kappel of Meredosia said over the telephone that there was still hope of holding the levee of the Meredosia Lake Levee and Drainage district. The water was then within a few inches of the top but he thought that unless there should be continued strong winds from the White the water was near the top of the levee thus far there has been little seepage and this is taken to indicate that the earth below the water line is holding well against the pressure. A large force of laborers was at work there all day Wednesday and through the night, doing protection work. Mr. Kappel said that 1000 sacks were being conveyed to the levee which about two miles north of Meredosia and that this would be of great service in protecting the levee. Great quantities of rock have also been hauled out.

There are about twenty-five families living within the confines of the district but they are taking no chances there and all of them have moved out to higher land. Most of them are located with friends on Sand Ridge or are living in tents there. The district was organized about six years ago and embraces five thousand acres of land. If the levee breaks and the water flows in the average depth will be about twelve feet. It would mean that very little of the land could be tilled this season. It would mean also quite a heavy loss of wheat acreage as the wheat could not live under water for such a long period.

**Wash Tracks Covered.**  
The Washash train from the West which arrived here at 8:28 o'clock Wednesday night came through eight inches of water much of the way between Naples and Valley City. C. F. Ehnie, who was one of the passengers said last night it was a grat sight looking from the train window. For miles in all directions there was a vast expanse of water. At the time the train came slowly along the water was running over the tracks to an average depth of eight inches while in several places it was two feet deep. The Washash has an army of men at work all along the track there and with sand bags and rock is making all possible effort to save the track.

Men are also at work on the Naples town levee and may be able to build

it up enough to make it withstand the flood. This levee protects both the town and the railroad property. If it goes out a large portion of Naples will be under water and the residents there will be compelled to flee. In fact all living in the locality which would be affected by the break are ready to get to higher ground on a moment's notice. The railroad in event of a break would be under four feet of water and a vast acreage of land would be flooded.

**Conditions at Beardstown Scions.**  
At Beardstown the river rose four inches in the past twenty-four hours and the water is now at the top of the levee protecting the Combs addition, and gradually weakening is expected to go out within a few hours. Mr. Pilger, who is in charge of the protection work, had one hundred men working all night, but the waves were lapping over the top of the levee, and the top is getting soft and mushy. Mr. Pilger stated last night that he expected the levee to break within ten hours. Last night at 10 o'clock the stage of the river was 21.6 feet.

If the levee at that place breaks it will let water into the city of Beardstown to within one block of the public square, the center of the business district. Thirty families are within the boundaries of what is known as the Combs addition, and they have been warned of the danger and are prepared to leave in a few minutes.

**Six Blocks Covered With Water.**  
Beardstown itself has begun to feel the effects of the high water, although the levees have so far withstood the rise of water. In the south part of the town six blocks of the residence district are covered with water and the fifteen families that inhabited the houses are living in tents. The water has started to back through the sewers and Wednesday water was standing in the streets near the Goodell hotel, which is within one block of the square, and at several other places.

With the exception of one, all of the roads leading into Beardstown are so far under water that transportation over them has been abandoned. The one road that is still passable is the state road which goes through Virginia. In one place the water is standing on this road for a stretch of several yards, but as it is shallow teams are still able to go through it. Both the Burlington and B. & O. railroad companies had forces of men busy protecting their tracks with sand bags, and so far train service has been affected but little.

**Men at Work Across River.**  
About one hundred and fifty men are at work on the Christie & Lowe levee across the river from Beardstown. The water there is three and one-half feet from the top of the levee, but the structure is not heavy, which makes it rather dangerous, even though the water is quite a distance from the top. Five thousand bags of sand were used in re-inforcing this levee and it is thought that the men will be able to keep the waters out. If this place is filled with water, about the only damage resulting will be the loss on account of the farmers not being able to cultivate their land until it is too late for the crops to mature. Several families have moved out and nearly all of the stock has been moved to places of safety. Several families are still living in the district, and but little uneasiness is felt, as it takes this place twelve hours to fill and the people will have plenty of time to get to places of safety.

**Southwest Wind Dangerous.**  
In speaking of the conditions Mr. Pilger stated that in his opinion the only thing that saved the levee from going out Wednesday was the shift of the wind from the southwest to the southeast. He said that for a time Wednesday morning the wind blew at a pretty good speed from the southwest, but that it soon changed to the southeast, thereby greatly lessening the danger. He said that with a strong southwest wind the waves would roll in on the levee three and four feet high, and keep reducing its power of resistance until it finally gave way.

**RECEIVES APPEAL FOR AID  
FROM CITY OF BROOKPORT**  
Message States City Will be Submerged Within Forty-eight Hours—2,000 Lives in Danger.

Springfield, Ill., April 2.—Late tonight Governor Dunne received a message from John Lackman, city attorney of Brookport, Massac county, asking for state aid for flood sufferers at that place. Adjutant General Dickson immediately wired back asking for details and what was needed in the way of supplies. The message from Brookport says: "This city at the present rate of the rise in the Ohio river will be submerged in forty-eight hours. Imminent danger, damage and distress. Answer in behalf of 2,000 sufferers."

Adjutant General Dickson in addition to asking Lackman for details sent a telegram to Major Logan, in charge of the government relief expedition, advising him of the report from Brookport and suggesting that the United States relief boat "King," now at Cairo, be rushed to Brookport.

A message from Colonel E. J. Lang of the Illinois National Guard, who was sent to Shawneetown to supervise the relief work, was received by General Dickson tonight from Sturgis, Ky., across the river from Shawneetown. This message stated that the river at Shawneetown had reached a stage of 58 feet and that "everything at Shawneetown is under water." Assistant Adjutant General R. J. Shand also sent a message from Sturgis, Ky., stating that he would leave there at 9 o'clock tomorrow morning for Springfield in response to a message from General Dickson, asking him to come back. Owing to the flood, it will be necessary for Colonel Shand to return to this city by way of Evansville and French Lick, Ind. General Dickson will leave for Cairo as soon as Colonel Shand reaches Springfield, which will probably be Friday.

Indiana state prisons are full, according to a warning issued by the warden that they have no more rooms to accommodate criminals.

English suffragettes should ponder the fact that women in nine states in this country have obtained the right of suffrage without breaking into jail.

A London engineer has invented a scheme to clear snow from tracks of electric roads, passing the snow over electric heated plates, melting it, the water flowing away.

J. N. Goddard, town clerk of Millbury, Mass., has been re-elected, his townsmen attesting their regard by giving him a vote of thanks and a purse of gold. What do you think of that?

Interrogation or exclamation points seem to be favorite decorations on the ladies' hats just now. Has a record been kept of the "exclamations" made when the bills are presented?

Regarding interest taken by the people in elections. In the second ward there has as yet been no nominations made for member of the school board, and but one man in the first. Are they to go by default?

A grocer has asked why, after ordering the grocery team out a mile and a half to deliver a 5c article, the club should listen to papers showing the high cost of living to be due to the tariff or the trusts.

Mrs. May Taylor is seeking the mayoralty nomination in Topeka. She advocates uniform wages for all city employees and will refund all of her salary above this minimum. Great reforms have originated in "bleeding Kansas."

A speech made by a daughter of the president is said to have secured the passage of a law providing for a shorter working day for women in Delaware. Women have great influence in shaping legislation for good, even though without the right of suffrage.

A bill has been adopted by the legislature of New York permitting the state conservation commission to utilize the surplus waters at large canal dams in generating electric power. This is another step toward a policy of state ownership and should at least prove a valuable experiment and shows that conservation rightly includes proper use and development.

Jersey City is trying a new plan in the disposal of the ordinary booze fighters, giving the Salvation Army permission to pick up the man unconscious from the effects of alcohol and take him in. Then he will be sobered up, his folks, if he has folks, will be notified, and the man himself, instead of having his future injured by arrest and imprisonment, will have a new chance in the world. It remains to be seen whether this experiment will work satisfactorily, but it is certain that it will be best for his wife and children.

Reports received from correspondents of the bureau of statistics at the department of agriculture indicate that the money wage of farm labor of the United States increased about 3.2 per cent during the past year and 7 per cent during the past two years. Since 1902 the increase has been about 34 per cent. Wages vary widely in different sections of the United States; for instance, the monthly rate without board is \$56.50 in Nevada; \$58.30 in Montana and \$51.60 in Idaho; \$17.10 in South Carolina; \$19 in Mississippi, and \$19.50 in Alabama.

Following the repeal of the state rating law in Missouri and the enactment of a new section to the anti-

trust law, referring specifically to fire insurance, fire insurance managers in that state have recommended that all companies suspend business there until it may be settled that they may safely resume. The attorney general has announced that unless the fire insurance companies promptly reduce rates he would begin criminal proceedings against them under the general anti-trust law without waiting for the special section to go into effect. As the loss ratio in Missouri in 1911 was 73.5 per cent and in 1912 was 70.9 per cent, while this year started off very badly, the companies were unwilling under these circumstances to subject themselves to the risk of criminal proceedings until they could find where they stood.

While the floods are receding in Ohio and Indiana the southern part of our state is endangered. An even greater danger will follow the subsidence of the waters—that of pestilence and disease from the use of polluted water. Dr. Evans, the health editor, has made some recommendations that will be of value to any forced to drink water from wells where there is danger of pollution. He says:

"Take a level teaspoonful of chloride of lime and rub it up, until there are no lumps, in teacup of water. Dilute this with three cupsful of water, and keep this stock solution in a stoppered bottle for use. A teaspoonful of this stock solution, added to a two gallon pail of water, and well stirred up, will destroy all typhoid or other dysentery producing germs in 10 minutes and will make the water safe to drink. If this quantity makes the water taste, use a little less, otherwise not. Get the chloride of lime in metallic cases."

#### LIGHT AND LEARNING.

From the present outlook the proposed issue of bonds for the electric lighting plant will be defeated. Is this as it should be? Will it be of benefit to Jacksonville and Jacksonville property owners? The increase in the amount of taxes will be small each year and will in part be offset by the increased use of the lighting power, where we now have to pay the Railway and Light company thousands of dollars each year.

There are objections brought, of course, but are they well founded? The one oftenest met is that the cost is too great—but the difference, at most, is not great. Let the increased light, the increased safety on our streets, the increase of pride in a well lighted city be considered.

Some men say they do not care to put the disbursement of such a large amount of money in the hands of the present city commission. These men were elected by the people. They were nominated first by selection from a list of forty or fifty candidates. Then—a second sifting and these five were selected. If they are not the right men, who is to blame? The system of nominating? Then change the law. But give the men elected a chance to show what they can do.

Do not carry petty prejudices into matters affecting the general good of the city. Be a booster instead of a bumper.

Threats of an injunction forced delay in building the new eighth grade building, force delay that will be detrimental to our public school system, and yet the board of education has over \$60,000 in one of our banks ready to use for that purpose. Technically the board cannot let a contract until the full amount of the money necessary is on hand, as it is to be built out of a building and repair fund. That \$60,000 must lie in the bank, cannot be loaned by the board even to save interest. Is it best?

The school improvement has, therefore, been declared off for this year, at any rate, because some one has thought that the board was spending too much money on the extension of our school system. Jacksonville has

had every reason to be proud of her public schools. They seem well managed. We have not approved the action of the school board in every case, but if their course generally has been for the public good, why quibble when it comes to a great improvement. It will probably cost a few dollars more than some think wise when it is built.

Something must be done in the way of improvement of the electric light plant, just as, sooner or later, another building must be erected for the use of the eighth grade.

We are not endeavoring to plead the cause of either the men composing the school board or the city commission. They are men elected by the people. A part of them were supported by the Journal at the time of their election. Some we opposed. But they were elected. In all fairness you should not condemn, or oppose a measure simply because it is favored by them.

Give the bond question more thorough consideration, from a broader, greater viewpoint. Leave prejudice and jealousy aside. May be you will vote for it—may be not. But be honest, and vote.

**ATTEND B. A. Y. CONCLAVE.**  
W. E. Thomson arrived at home yesterday from Dixon, Lee county where he went to attend a convocation of the Brotherhood of American Yeomen which was in session Tuesday, April 1. There was a satisfactory attendance of delegates and an interesting meeting was held. John Wasler of Peoria was elected state foreman of the organization for the next four years. Dr. John F. Jones of Beardstown was elected as the delegate from this district to the national convocation to be held June 10 in Oklahoma City, Okla.

Public notice is hereby given that Edmund Blackburn has filed and there is now pending in the Circuit Court of Morgan County, State of Illinois, a bill in chancery in which Timothy E. West, Dorinda M. West and Elmer E. Cohagen are made parties defendant; that summons in chancery has issued out of my office, directed to the sheriff of said Morgan county, and is returnable to the May term of said court, to be held in Jacksonville, in said County, on the second Monday, being the twelfth day, of May A. D. 1913. Now if the said defendants do not appear and plead, answer or demur to said bill the same will be taken as confessed and a decree entered against them according to the prayer of said bill.

Eugene D. Pyatt,  
Circuit Clerk.  
Julian P. Lippincott, solicitor for complainant.

**OLDEST OF LIVING MONARCHS.**  
Berlin, April 2.—The emperor sent a message of warm congratulation to the Duke of Saxe-Meiningen, who completed his 87th year today. The duke is the oldest of the European rulers. He was born in 1826 and came to the throne when he was 40 years of age. He has always been remarkably popular among his subjects on account of his liberal policy.

**SECTION OF SULZBERGER FERTILIZER PLANT BURNS.**  
Chicago, April 2.—Flames today destroyed a section of the large fertilizer plant of Sulzberger & Sons company, a five story brick building in the Union Stock Yards. Fifty men employed in the structure and a score of young men working in adjacent departments fled to safety. The loss is estimated at \$50,000.

**REAL ESTATE TRANSFERS.**

#### SIMPLIFIED COURT METHODS WILL BE MAIN THEME

This Subject to Have Important Place in Discussion at Meeting of Illinois Bar Association, in Springfield.

Simplification of court procedure to reduce delays and miscarriages of justice will be the chief topic of discussion at the annual meeting of the Illinois State Bar association, which will be held in Springfield Tuesday and Wednesday of next week. A bill now in the legislature, making many changes in court practice and empowering the supreme court to make others as discussion regarding them arises, will be viewed from every angle by the members of the association and is very likely to receive the state body's unanimous support.

Professor William E. Higgins of the state university of Kansas, who has done much towards the simplification of legal practice in that state, will deliver the principal address at the convention. Hon. Henry D. Clayton of Alabama, chairman of the judiciary committee of the last congress, which successfully conducted impeachment proceedings against Judge Archbold, was to have been a speaker, but will be unable to come.

Judge Harry Higbee of Pittsfield president of the state association, will speak on the proposed reforms in practice, procedure and pleading which have become a topic of interest to both members of the legal profession and laymen throughout the country. Albert M. Kales of Chicago will tell how the English have met the problem of placing the courts on a basis of modern business method, in their jurisdiction act. Herbert Harley of Michigan will speak on the certain and speedy methods employed in Canadian courts and will offer suggestions by which the lawyers of Illinois may aid in making the courts of this country more prompt and effective.

In the general discussion of the subject, in which representatives of almost every county in the state will participate, State Senator Logan Hay and George Gillespie will represent Sangamon county.

The Sangamon County Bar association will entertain the members of the state organization at a smoker Tuesday evening. It will be held at the temporary quarters of the Sangamon club at the Leland hotel.

Governor Dunne, Chief Justice Dunn of the state supreme court, Speaker McKinley of the house of representatives, former Lieutenant Gov. V. A. Northcott and Major Edgar Brown of Peoria will be present. Major Tolman is chairman of the law reform committee of the state bar association. He will tell of the work done by the committee. The banquet will be served in the banquet room at the Leland hotel. It will be for members of the bar association and their guests among whom will be many ladies.

No matter how long you suffered or what other remedies have failed to cure Foley Kidney Pills will surely help you. They are genuinely tonic, strengthening and curative, build up the kidneys and restore their regulation action. John Velbert, Foster, Calif., says: "I suffered many years with kidney trouble and could never get relief until I tried Foley Kidney Pills which effected a complete cure." City Drug Store, J. A. Obermeyer.

**PROBATE COURT.**  
Estate of Guy W. Bradford, deceased. Report approved.  
Estate of Caroline F. Pitta, deceased. Inventory approved.  
Estate of John S. Inskip, deceased. Inventory approved.

#### CRACKER'S BEND.

Chas. Long has returned to his home in Coffeyville, Kansas, after a visit with his parents, Mr. and Mrs. Jas. Long. Mr. Long is improving but Mrs. Long's condition remains the same, she has been unable to walk for more than two years.

Mrs. Jane Shirley is suffering from an abscess in her side, her condition is serious with but little hopes for her recovery.

Mrs. Wm. Jones and sons spent Wednesday with her mother Mrs. Elma Wixwell.

Geo. Henderson of Red Cloud, Neb., is visiting his sister, Mrs. George Brainer.

Misses Mae and Minnie McFadden spent Saturday afternoon with Mrs. Wm. Jones.

Oscar Smith was a business caller in Jacksonville Saturday.

Mothers' day, the second Sunday in May, will be observed in the Grace chapel Sunday school by a suitable program.

Elmer Smith lost a valuable horse Monday, it had been owned by the family for a number of years.

#### WILL HOLD SECOND ANNUAL MEETING IN SPRINGFIELD.

American Institute of Criminal Law to Convene in Connection With Bar Association.

During the meeting in Springfield on April 8 and 9, of the Illinois State Bar association, the Illinois branch of the American Institute of Criminal Law will hold its second annual meeting.

A very live program has been prepared consisting of the address by the president, William M. Gemmell of the municipal court of Chicago on "What is wrong with our administration of criminal law."

The following committee reports will be made:

Criminal Statistics—Professor J. W. Garner, University of Illinois, Urbana.

Indeterminate Sentence—C. A. Purdum, member board of managers, Illinois State Reformatory, Marshall.

Criminal Procedure—Professor W. W. Cook, University of Chicago Law School, Chicago.

Industrial Education (for juveniles)—Frank M. Leavitt, associate professor of industrial education, University of Chicago, Chicago.

Juvenile Delinquents—Clyde E. Stone, judge county court, Peoria. Legislative Committee—Col. Nathan William MacChesney, Chicago. Other subjects on the program are as follows:

Present day aims and methods in studying the offender. Some practical results—Dr. William Healy, Director Juvenile Psychopathic Institute, Winnetka. Discussion—Dr. Harold N. Moyer, Chicago.

A working program for an adequate system of collecting criminal statistics in Illinois—Dr. A. J. Todd, University of Illinois, Urbana.

Discussion—A. L. Bowen, secretary Charities commission, Springfield; Professor J. W. Garner, University of Illinois, Urbana.

A statistical review of the work of the supreme court, 1906-1910—Orin N. Carter, justice of the supreme court, Chicago.

A brief review of criminal cases in the supreme court for the past year. Professor Frederick Green, College of Law, University of Illinois, Urbana.

Discussion—George B. Gillespie, of the Springfield bar. Election of officers and business session.

Sixty Years the Standard

**DR. PRICE'S**  
Cream Baking Powder

A PURE CREAM OF  
TARTAR POWDER

Approved by physicians and by food officials, both State and National. Awarded highest honors by the great World's Expositions, and proved of superior strength and purity by the official tests.

No Alum—No Lime Phosphate

As every effort is made in the advertisements of the cheap baking powders to conceal the fact that they are made from alum, consumers must READ THE INGREDIENT CLAUSE UPON THE LABEL on the can and never buy unless it shows cream of tartar.

(OFFICIAL)

"In view of the overwhelming mass of evidence antagonistic to alum, it is recommended that its use in baking powders be prohibited by law."  
United States Senate Committee Report.

## Cook With Oil

Means Convenience, Economy, Ease

Perhaps it will surprise you, but it is a fact that Oil as a fuel in the cook-stove is not only much cleaner and safer than any other fuel—it is far cheaper, as well.

Over a half million New Perfection Oil Cook-Stoves are now in use in the middle west and every one is giving satisfaction.

Cook on the New Perfection and save half the cost of gasoline and one-third the cost of gas. Your task will be simplified and your dishes improved.

All the discomforts of the coal range and the dangers of gas and gasoline are now happily substituted by the efficiency and absolute safety of the

**New Perfection**  
Oil Cook-stove

Ask your nearby dealer to demonstrate this wonderful stove. Have him show you its Cabinet Top (for keeping dishes hot), with drop shelf and towel racks that make the New Perfection a coal range in appearance as well as in usefulness and in convenience. See the new Oil Reservoir with Indicator. See the Odorless, Smokeless Burner—a marvel in itself. See the Special Oven. Note the New Perfection's wick blue flame. Consider this stove in point of looks, simplicity and general efficiency. Judge for yourself what a saving of money, time and patience a New Perfection will mean to you.

Valuable Cook Book  
Send 5 cents in stamps to cover cost of mailing and we will send you, free of charge, a dandy 72-page Cook Book that's worth its weight in gold.

## FINDS WONDERS IN FAR OFF JAPAN

S. W. NICHOLS WRITES OF TRAVELS FROM YOKOHAMA.

Understand Now Why Tourists Always Say: "Be Sure to Go To Japan"—Scenery Is Interesting and Worthy of Study—Some Temples Are Visited—Japanese Railroad Methods.

Yokohama, March 1, 1913.

Dear Journal,  
After being in this wonderful land only a little more than two days I am not surprised that those who have been here say "By all means go to Japan." It is a constant series of surprises and delights and if one only has health and strength to get about on his legs he can enjoy a lifetime in a few weeks. This morning as we started out we met the street sprinkling force which consisted of a few hand carts with water boxes holding two or three barrels and drawn by a man each. Along the street are distances and the men fill their carts from these and meander down the street letting a tiny lot of streamlets flow from their carts.

The streets are narrow, hard and smooth and have little dirt so that the miniature department answers very good purpose. The postoffice is a busy place and when one recalls the awkward hieroglyphics the clerks have to make it is a wonder that they make as good speed as they accomplish. The currency here is quite convenient. The prevailing coin is the yen which is about half a dollar of our money. Japan adopted the gold standard some years ago so that her coin is reckoned in the yellow metal.

The yen is divided into a hundred sen and the sen into ten rin though these coins are seldom seen. All business is transacted in terms of yen and sen and we have little trouble, but are looking for it when we get to China with her mixed currency.

Today we have had such a surfeit of sight seeing that we feel like resting our eyes and brains for a week, but we can't afford that as we must keep going all week days. We took a morning train for Kamakura which is an hour distant from the city.

No Tillable Land Wasted.  
The scenery is rugged and it is interesting to see how carefully each little patch of ground available for cultivation has been utilized by the hard working peasants. Occasionally a terraced hill with its level spots carefully tilled made me think of beloved Palestine while the crazy quilt hillsides resembled Portugal or Italian slopes and some in Switzerland.

All along people were working and the quaint abodes, the queer methods, the romantic hills and valleys all made a picture never to be forgotten. Kamakura was once the capital of eastern Japan but has shrunk to a quiet seaside village, a favorite resort of the well to do Yokohama residents, who can afford to live in a suburb and do business in the city. The Kaihi hotel is pleasantly situated on the shore of the sea not far away and affords good service.

Kamakura was the seat of government in eastern Japan from the end of the twelfth to the middle of the thirteenth centuries. Yoritomo, who established the Shogunate in 1192, chose this place as his capital and here was laid the foundation of the Feudal system of government which prevailed to the year 1868. The city of Kamakura, in the time of Yoritomo's immediate successors, extended all over the plain and into the recesses of the different yases, or dells, which branch off among the hills. Its population is believed to have exceeded a million in the days of its glory—Kamakura was the scene of many contests between rival military factions, and of many bloody deeds.

Here, on the sea shore, were headed the Mongol ambassadors of Kublai Khan who had impudently sent to demand submission of Japan to his sway. The city was repeatedly sacked and laid in ashes and seems never fully to have recovered from the disasters of the year of 1455. The neighboring city of Odawara, which next rose into importance as the seat of the powerful Hojo family, attracted to itself large numbers of the inhabitants in Kamakura, the ruin of which town was completed by the founding of Yedoin in 1603.

The Temple of Kamakura.  
The chief sights of Kamakura are the temple of Hachiman, the Diabutsu, or colossal bronze Buddha, and a great image of the goddess Kwannon. In the year 1218 the young Shogun Sanetomo, having received an additional title from the Mikado was about to go in solemn procession to return thanks at the temple of Hachiman. He seems to have had some forebodings of evil; for, before leaving the place he composed a stanza which may be thus rendered:

"What time its lord hence issuing  
All tenantless this dwelling leaves;  
Be thou still mindful of the spring  
Dear plum tree standing by the  
eaves."

The same morning, while he was being dressed he pulled out his hair, and gave it to his attendant saying: "Keep this in memory of me." He had been advised to don armor under his robes but failed to adopt the precaution. The ceremonial was protracted till a late hour as Sanetomo descended the steps in the dark a man sprang upon him from behind a tree, cut him down and carried off his head. Though the assassin who proved to be the high priest of the temple and Sanetomo's own nephew, was soon discovered and dispatched, the head was never found. So the hair of Sanetomo had given to his faithful retainer was buried in its stead.

In the immediate vicinity are sev-

eral shrines and temples which are fine, quaint, and attractive, but a detailed description would hardly be of interest as there is so much of them to be seen and so many particulars in their construction and furnishings.

The great image of Diabutsu is one of the marvels of Japan. It represents a figure sitting and is of immense size. It is the idea of Buddhism and is the personification of Nirvana which means absolute repose or even death in endless sleep. It is composed of sheets of bronze cast separately and brazed together and finished with the chisel on the outside.

The image which represented Amida, apparently dates from A. D. 1252. It was originally inclosed in a building fifty yards square, whose roof was supported on 63 massive wooden pillars. Many of the stone bases on which they rested are still in situ. The temple building was twice destroyed by a tidal wave, in 1369 and 1494, since which they have not been re-erected and the image has ever since remained exposed to the elements. Its dimensions are as follows:

Height, 49 feet 7 inches.  
Circumference, 97 feet 2 inches.  
Length of face, 8 feet 5 inches.  
Width from ear to ear, 7 feet 9 inches.  
Round white boss on forehead 1 foot 3 inches.  
Length of eye, 3 feet 11 inches.  
Length of eyebrow, 4 feet 2 inches.  
Length of ear, 6 feet 6 inches.  
Length of nose, 3 feet, 9 inches.  
Width of mouth, 3 feet 2 inches.  
Height of bump of wisdom, 9 inches.  
Diameter of some, 2 feet 4 inches.  
Curls (of which there are 931.) height, 9 inches.  
Diameter of curls one foot.  
From knee to knee, 35 feet 5 inches.  
Circumference of thumb, 3 feet.  
The hollow interior of the image contains a small shrine and a ladder reaches up into the head.

Other Temples Described.

The temple of Kaka Kwannon, known as Hase no Kwannon stands not far from the Diabutsu in an eminence commanding a beautiful view of the seashore toward Misaki and the Kamakura plan. The great image of the goddess of Mercy for which this temple is celebrated stands behind folding doors which a small fee to the attendant present will suffice to open, but the figure can only be indistinctly seen the dim light of three candles. It is of brown lacquer covered over and its height is 31 feet and five and a half inches. The admirable bronze seated figure of Dainich Nyorai on the one was presented by the Shogun Shikaga Yoshinasa. Close to this temple is a bold cliff which Henrietta and I climbed after much exertion. It is called Inamurazaki.

A great image is in a grove and surrounded by trees and other objects and an imposing gateway leads or opens to it. On the pillar to the right is the following warning to visitors.

"Stranger, whoever thou art and whatsoever be thy creed, when thou enterest this sanctuary, remember thou treadest upon holy ground allowed by the workshop of ages.  
"This is the temple of Buddha shrine of the Eternal and should be trodden with reverence."

The surroundings were indeed sacred and while it was a place of heathen worship I felt a peculiar reverence within the sacred inclosure. There, hundreds of years before Columbus discovered our land, this gigantic image rested in all its glory, worshiped and revered by thousands of devout persons. The foundation stones of the ancient temple are yet to be seen and all about is an air of religion and sacredness such as would naturally pertain to such a place. It was truly an inspiring experience and one never to be forgotten.

There are several temples in the vicinity and these are not used for worship by the people and aged priests solemnly officiate as various worshippers appear at the shrines.

Met World Tourists.

We were unfortunate in encountering a mass of world tourists who were doing the countries in a charter steamer, paying a deal of gold and seeing the usual small amount. We waited till they had departed for they had about as much reverence as a lot of diminutive school children and it was anything but pleasant to be about them. They departed and instead of returning to the city with them we hurried on to the seashore where we were once more among the people of the land undisturbed by aristocratic tourists and we felt at ease. On the way we passed through a little village and encountered numerous shops for the sale of curios and souvenirs and I can never tell how greatly I longed for ten big trunks that I might bring to each of the school children in dear, far away Jacksonville, a pretty memento of the place. Such sea shells of gorgeous colors, such quaint devices and toys, such coral and a thousand and one other things were a sore temptation to load up, but we remembered that we were only on the threshold of our journey and would not wisely load up at once.

On we went till we reached seashore and stopped at a queer little restaurant kept by a man and wife as an adjunct to their home. There by the side of great breakers roaring and rushing to and fro, with the smell of the salt sea air in our nostrils and viewing the industrious people gathering huge piles of sea weed for future use we ate our dinners. The women said the tea served the woman was excellent and I took their word for it and enjoyed the meal very well and never did one eat amid more romantic surroundings.

Half a mile away across the bay is an ancient island which is a regular rocky promontory and a peculiarly historic and sacred spot. It is called Enoshima and forages has been sacred to the worship of Benten, the Buddhist Goddess of Luck and all over it are shrines which are regarded devoutly by the pious. It is high and rocky though there is enough soil to support rich verdure

which adds to the beauty of the place. Numerous stone stairways have been constructed and we climbed twelve hundred stone steps in the course of the day. At one temple the priest was absent and the devout had left their money laid alongside right near the path, but it was safe for no one would think of taking it.

More shops sorely tempted us and it is useless to try to describe their attractions for the shells here are more curious, gorgeously colored and artistically finished and mounted than any place I ever saw. From any side of the island a grand view was presented and we lingered long on the spots with best vistas and their memories will fade only with our departure from this world. I wished we could decipher the characters on shrines but we could not contented ourselves with the supposition that they were praises of the reigning deity and exhortations to greater devotion to duty.

Away in the dim distance was the smoking summit Oshima and though it was so far off we hoped that no earthquake would trouble us while in the country for Japan is volcanic and has suffered a number of dreadful shakeups.

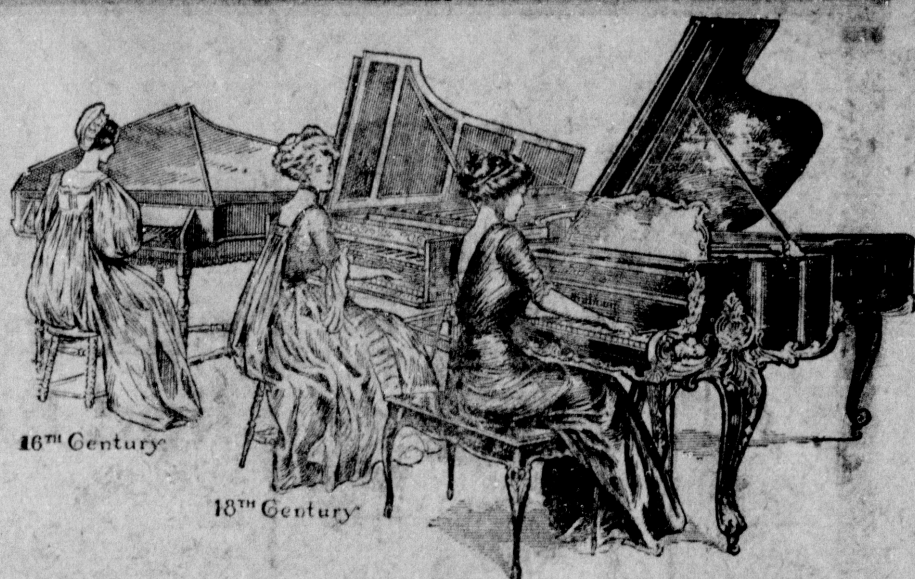

Visited Noted Cavern.

Probably the most interesting and at the same time fearful feature of the island is an enormous cavern on the remote side. It was a fearful climb to get to it as we had to clamber over rocks, slide down inclines, skirt narrow passages and scramble up precipitous slopes, but we had gone there to see it all and we persevered. Legend says that in early days the site of the cave was inhabited by a dragon which used to devour the children of the vicinity and wrought great havoc among them but finally the Goddess Benten appeared, the island emerged from the waters, the deity married Mr. Dragon and proceeded to read him a curtain lecture in no uncertain manner on his evil ways and compelled him to behave himself thereafter and if anybody doubts the story he can see the empty cave for himself.

The cave is indeed a fearful affair and no wonder it is peopled with gloomy legends. A grim old keeper sat not far from the entrance and before we could cross the narrow footbridge which led into it we must hand over five sen each for the privilege. The great mouth or entrance yawned black and horrid while tumultuous waves surged back and forth cast up by the ever restless tide making the cavern resound with gloomy roars. People with candles shaded or guarded with a shield so as not to be blown out by the draft went ahead and showed the way over the rocks though we went far enough to satisfy ourselves and then returned and again clambering over the fearfully rough and rugged way reached the top of the cliff and looked down over the hard road we had traveled. It was indeed a difficult task, but we felt well repaid for the effort.

As we returned we passed in front of a temple with its votive shrine and priest waiting for worshippers who came and went during the afternoon. The old fellow squatted on the floor in front of the little altar and devout ones appeared before him, bowed humbly, lighted their little candles or not as the situation demanded, offered perhaps a prayer or two and reverently went away leaving the priest a coin probably graded according to the value of the offering.

## Rheumatism Affects Lungs

Pneumonia, Bronchitis, Phthisis,  
Asthma and Anemia Often Direct-  
ly the Result of Rheumatic  
Blood.

If you have a persistent, nagging bronchial cough beware of cough remedies. They are merely local in action, and if they do relieve it is the narcotics that do it. What you require is a blood purifier, a searching antidote that removes from the circulation the acid poisons that by their reflexes attack all weakened, susceptible spots and thus create local symptoms. The very best remedy known is Swift's Sure Specific. You will find it on sale in any drug store at \$1.00 per bottle. It goes straight into the blood, becomes an internal blood bath, wonderfully increases the red corpuscles, cures all the local fever spots and irritations, increases appetite, you take on flesh and feel a wonderful sense of renewed strength. Hundreds of people worried beyond control at cough, pains in the chest, sore throat and constant expectoration of thick mucous have experienced the most wonderful change after using S. S. S. All doubt and apprehension is gone, those peculiar pains and aches vanish, there follows a period of intense rejoicing to find that worst fears were based entirely upon a mistaken notion that cough and chest pains come from the lungs. These are rheumatic conditions, and you will quickly realize it after using S. S. S. for a few days. Get a bottle of S. S. S. to-day at the drug store and then say good-by to all those pains that have worried you.

Write to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga., for medical advice and wonderful facts concerning the greatest blood remedy ever known.

## FINDS WONDERS IN FAR OFF JAPAN

(Continued from Page Eight.)

According to the ability of the giver and I hope they were cheerful.

**Visited Union Church.**  
Sunday we went to the Union church which is a beautiful building on the bluff where many of the Europeans and Americans live. It is intended as a spiritual home for members of churches who are remaining in Yokohama for an indefinite time and joining it doesn't alter the relation the member sustains with his church at home. The pastor is Rev. J. I. Blackburn and he is an able, pleasant speaker. We heard two fine discourses, one in the morning followed by a communion service, and another in the evening. The pastor met us cordially and we were kindly greeted by a number of the members also and made to feel at home.

Every little while some feature of Oriental life impresses one and the latest is the lack of courtesy to women. One never sees a man walking with a woman nor is common civility as understood in our country visible. In street cars men crowd right in ahead of women and never think of getting up to give a lady a seat. A gentleman once politely helped his wife from a jinrikisha and a Japanese friend called next morning to ask after the lady's health. The gentleman was not aware of any indisposition but finally was made to understand this courtesy helping his wife from the little vehicle surely showed she was ill for otherwise she would not be entitled to any such politeness.

I was impressed by the way the carriers of the daily papers do their work. They are good sized urchins and to each is tied a string of a dozen loud sounding bells. The boys go on a smart run deftly slipping the papers into the houses between the shutters or doors as the case may be. I watched them in a number of instances and they didn't seem to tire at all but kept right along the whole time. I couldn't help thinking that if the Jacksonville carriers were similarly equipped and went as that pace they would get over their routes in a hurry and for a while create quite a sensation.

Monday we set out for Nikko, one of the great attractions of Japan and had quite an experience. We failed to note the information at the bottom of the folder that we were to change "carriages" at a certain station and when the train came to a final standstill at the end of the run we found ourselves in Tokyo and crab like had to retrace our way to the last station we had left. It wasn't far and a convenient train took us and probably our mistake had been communicated to the official where we had to

change for he seemed to be looking for us and gave us the correct directions only we lost the first train and over two hours' time.

**Railroading in Japan.**  
Railroading in Japan differs in many respects from the same method of travel in our country. There are no conductors, no communication from the train to the engine and no announcing of stations. They are named on boards not very conspicuous and one must watch for the right place to alight. Baggage is not checked and at the destination one must be right on hand if he has anything in the luggage car and claim it as it is cast on the platform. The government owns the roads and all connected with them are in uniform; even the engineers and firemen not wearing overalls at all but natty blue suits and caps to match and their clothes didn't seem to be soiled either. The road beds are generally good and smooth and the time very slow though trains are frequent. The cars are light, many of them having only four wheels, two at each end while some are as long as with us and have six wheels at each end. They are divided into first, second and third classes and there is quite a difference in the rates. The third class differ considerably, some being quite bare while others are tolerable. The main difference between first and second classes is the figure on the side of the car and a little brighter color in the first class cushions. The seats are alongside the car and well cushioned so that one can lie down comfortably on them. They are well heated and travel is comfortable on them. They are supplied with drinking water and lavatories but there are no porters to wait on passengers but everybody is so leisurely there is little need of that.

The engines are of all sizes and are generally of English make. They are not supplied with pilots or cow-catchers nor bells. Some of them have but one drive wheel on a side while others have two and occasionally three. The cylinders are often under the boilers and the drive wheels are guarded and getting about them is very convenient.

Unlike many one sees in Great Britain they are supplied with comfortable cabs which is well. When the time for starting arrives the station agent blows a mouth whistle, the engineer responds with the locomotive whistle which is little louder than a good sized squeak and the train is off. The roads are all double tracked and at the stations passengers are strictly forbidden to cross on the rails, viaducts for that purpose being provided to avoid accident. All connected with the roads are polite though few know any English and information is hard for a foreigner to get, but when a Jap does know anything of our language he is proud to air it. Often when we would try to talk with a number one

of them would dart away and soon return with a man who had a little knowledge of our speech and was glad to use it for our benefit.

The freight trains are made up of small cars called wagons and are also strictly English. The rolling stock of all kinds seemed well cared for and in good order. A Jap is a natural mechanic and can imitate anything made and I have no doubt they make excellent railroad employes. A good many electric cars run on the same track as the steam propelled trains.

**Serve Lunches in Navel Way.**  
I suppose that possibly on the de luxe trains there are diners but I saw none of them and was amused at the manner of serving refreshments along the way. At all stations of any consequence boys carrying large trays walk along the platform announcing in a monotonous sing song tone their wares. Some native men in our car patronized them and for a small sum bought a very respectable lunch and ate it as we traveled. Each received a dish about eight inches in diameter and two deep and supplied with a partition. The main part of the dish was filled with rice and in the smaller part was meat cut into small pieces. A pot of tea and small cups came along with the rest and with two whittled out chopsticks the men attacked their meal. It was interesting to see them manage the chop sticks so easily but I fear if one of us had tried it we would have made a very qualified success.

The men seemed to enjoy their feed all right and drank the tea with a relish. I suppose there is an arrangement at the end of the line to care for the dishes as they were left on the floor of the car when the men arrived at their destination. We looked at them rather longingly for their morsel seemed clean and inviting and we decided that some time we would try a Jap lunch and see how it would taste.

Nearly all the way along during the long ride of a hundred miles or more the country looked like one continuous garden. No fences took up room or cost money but every foot of ground was well utilized and not once did we see a piece of land that looked at all worn out though it had doubtless been worked or cultivated for centuries. Nor did we see many animals, hardly a horse during the day except two or three that were packing loads of hay or green fodder on their backs. Once not far from Tokyo we saw some cows which were probably the property of a man conducting a dairy for a city hotel for the Japs themselves know little of butter or milk. Man power is cheaper than horse flesh.

Though the weather is cold and raw there seemed to be no frost as we went along and many fields were already green with the new spring crop mostly vegetables planted in

rows. I think if a weed were found on the farm of a Jap he would faint away so thorough is their cultivation. Their tools are a fright, the most ungainly hoes imaginable and all else to match. It seems as if they had started out to see what awkward affairs they could devise and they succeeded.

As we neared Nikko they brought into the car a number of great foot warmers filled with live charcoal and comfortable. We had a long climb and finally reached our destination among grand, snow clad mountains.

S. W. NICHOLS.

## SUIT IN PARTITION.

A partition suit has been filed in the circuit court by J. O. Priest, acting for Elizabeth Parker and others. The bill is directed against Frank Rieck and others.

Rheumatism as a result of kidney trouble, stiff and aching joints, backache and sore kidneys will all yield to the use of Foley Kidney Pills. They are tonic in action, quick in results, curative always. W. S. Skelton, Stanley, Ind., says: "I would not take \$100.00 for the relief from kidney trouble I received from one single box of Foley Kidney Pills." City Drug Store, J. A. Obermeyer.

# YOU FARMERS WHO PLAN to BUY Cream Separators This Spring!

## The "UNITED STATES"

is the closest skimming

## CREAM SEPARATOR

made and holds the world's record.

won in an open contest in which all separators were allowed to enter, embracing fifty consecutive runs, lasting over thirty days and covering milk from ten different breeds.

You would not expect to buy the best cow in a herd for the same price as the poorest cow. Neither would you sell your most productive cow at as cheap a price as your least productive cow. So it is with the United States Cream Separator.

The United States Cream Separator won the Grand Prize (highest award) at Seattle, 1909, the Gold Medal at the California State Fair, 1911, the only award on cream separators at the Utah State Fair, 1912; while the dairy products of the U. S. not only won the Gold Medal at the National Dairy Show, Chicago, October 24—November 2, 1912, but have been awarded other Gold Medals, Silver Cups and First Prizes without number.

The daily work of the United States Cream Separator in the agricultural colleges and on hundreds of thousands of farms backs up its reputation as the closest skimming cream separator.

Prof. Haecker, of Minnesota Agricultural College

Professor Mortensen, of Iowa State College, says:

St. Anthony Park, Minn., Jan. 16, 1912.

We have used the United States Cream Separator at the Minnesota Dairy School of Agriculture for more than fifteen years, and we have always found them to be standard machines, not only doing first-class work, but very durable and rarely requiring repairs.

T. L. Haecker,  
Professor of Dairy Husbandry in charge.

Iowa State College, Ames, Ia.,

February 12, 1912.

We have operated one of the Interlocking Styl. and are pleased to inform you that we consider it to be a high class machine. It has in every respect given good satisfaction.

M. Mortensen,  
Professor of Dairying.

Price \$25 and  
upwards  
according to capacity.

Old Separators of all makes  
taken in part payment.

The 1913 Model U. S. is operated with

## HALF THE POWER

of older models.

Important improvements have made the 1913 model United States Separator one of the lightest running cream separators made.

The skimming area of the U. S. skimming device has been nearly doubled enabling the latest models to skim practically twice as fast. This double capacity of the bowl has permitted the reduction of the bowl diameter nearly one-half without reducing the capacity. The bowl in the 1913 model United States is one of the smallest as well as easiest running used in separators.

Improved gear construction. The angle of the gear teeth determines the effectiveness of the power applied at the crank. A new slant in the gear teeth enables all the power applied on the crank to be used in turning the bowl. The weight of the handle alone starts the U. S. Separator.

Bear in mind that not only can any child or woman easily do the skimming with the light running United States Separator but that this quality is wholly due to improved construction and in no way to a weakening of its famous qualities.

Ex-President National Dairy Show.

Leading Wisconsin Farmer says:

I do not see how one could get a better separator than the "United States" if they all work as this one does. I am satisfied with it in every respect and take pleasure in recommending it to my friends.

Colon C. Lillie,  
Lillie Farmstead, Coopersville.

"Easiest Running Machine There Is"

I purchased a 1913 model United States Cream Separator of Banta Bros. and company a few months ago, and it is the easiest running machine there is. The new bowl has the best skimming device made. I will further state that the new U. S. Separator can be cleaned in half the time needed to wash any other separator.

Mrs. Frank Loscher, Washburn, Ill.

I am separating the milk from thirty-six cows with one of your No. 14 Interlocking Separators and am very well pleased with the work it is doing. One thing that I am especially well pleased with, it is that it will separate its rated capacity, do good work and produce a uniform density of cream. It's very simple to operate and one of the easiest separators to wash and keep clean there is on the market. I certainly recommend the Interlocking Separator to any prospective purchaser.

T. E. Anderson,

Tomah, Wis.

## Make More Money

You are going to run some separator twice a day. If it does not skim clean you are not making all the money that actually belongs to you. If it is hard to run or difficult to wash you are doing unnecessary work, for which you are getting absolutely no return either in money or satisfaction.

## Free Offer

Before buying any separator why not take up with our FREE offer to give you a practical demonstration of the 1913 model United States Cream Separator right at your home and personally try out our claims?

## Remember, this Demonstration Costs You Nothing

Carries no obligation to buy and is offered to get you acquainted with the big 1913 improvements in the U. S. Simply fill out and mail the coupon. Now is the time.

Gentlemen:—Please give me a free demonstration of the 1913 model U. S. Separator, at my home, it being understood that this demonstration is no wise obligates me.

Name .....  
Address .....  
R. F. D. .... State .....  
What separator used .....  
How long ..... What size ..... Serial No. ....  
I live ..... miles, north, south, east, west of .....

## CRAMPS, HEADACHE, BACKACHE,

Yield to Lydia E. Pinkham's Vegetable Compound.

Cedar Rapids, Iowa.—"I was always tired and weak and my housework was a drag. I was irregular, had cramps so bad that I would have to lie down, also a distressed feeling in lower part of back, and headache. My abdomen was sore and I know I had organic inflammation."

"Lydia E. Pinkham's Vegetable Compound and Blood Purifier have helped me wonderfully. I don't have those pains any more and I am all right now. There are a great many women here who take your remedies and I have told others what they have done for me."

—Mrs. CHAS. McKINNON, 1013 N. 14th St. W., Cedar Rapids, Iowa.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

There are probably hundreds of thousands, perhaps millions of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over 30 years ago by a woman to relieve woman's suffering. If you are sick and need such a medicine, why don't you try it?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

**THE POWER OF STEAM**  
Many May See But It Takes Centes to Leave.  
When James Watt saw the steam rising from the kettle he had to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has ascertained a tiny germ which eats the life from the roots of human hair.

Newborn's Hairdressing destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Hairdressing Co., Detroit, Mich.

For Sale at all Drug Stores.

## LAND SUIT INVOLVES LARGE MONEY SUM AND OTHER REALTY

L. S. James Suits to Have Deed Set Aside to Property Here Given in Exchange on Nebraska Farm.

The suit filed a few days since by Kirby, Wilson & Baldwin for L. S. James against Gottlieb G. Haller of Washington county, Nebraska, involves a large tract of land and considerable money. According to the declaration on file Mr. James last January made a trade with Mr. Haller by which he acquired the title to a farm of 330 acres of land near Blair, Neb. Mr. James gave \$11,000 in cash and his residence property on West College street for the equity in this farm which had a mortgage on it of \$35,000. In bringing the suit Mr. James asks the court to set aside the deed he made to his property and to enter an order compelling Mr. Haller to return the \$11,000 paid to him Jan. 31, 1913. As reasons for this suit it is set forth that Mr. Haller and his agent or agents maintained that the farm was subject to overflow and that since the property has been in the possession of Mr. James that he has found that practically all of it is subject to overflow at least once a year. He avers that half of it is now under water and that the overflow is often such as to seriously interfere with tilling the land and growing crops which will pay. Mr. James mentions that he lived here at the time of the transaction and that he relied largely on what Mr. Haller and others told him about the Nebraska land. With reference to the matter of overflow he says that Mr. Haller, Asa and James Dickson and some other person wrote him and stated specifically and emphatically that the land was not subject to overflow. He says that he tendered Mr. Haller a deed to the land and asked for the return of the \$11,000 and a deed to his property here, but that the defendant would not agree to this action.

The Texas Wonder cures kidney and bladder trouble, removes gravel, cures diabetes, weak and lame backs, rheumatism and all irregularity of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months treatment and send 10c. to perfect a cure. Send for testimonials. Dr. W. E. Hall, 2925 Olive street, St. Louis, Mo. Sold by druggists.

**ACCUSED OF \$600,000 SWINDLE.**

Chicago, April 2.—The United States commissioner today heard arguments in the proceedings brought for the extradition of Hans Bauder, who is held at the instance of the Swiss government on a charge of having fleeced people of Switzerland out of \$600,000 in fraudulent mining stock schemes. Though still a young man, Bauder has had a highly spectacular career since his first arrest in Chicago from Switzerland seven or eight years ago. As president of the International Realty association he has maintained expensive offices in one of the downtown skyscrapers and has been well known about town.

According to the story told by Arnold Hollinger, Swiss consul in Chicago, Bauder returned to Switzerland, his native land, about two years ago and duped people in all parts of the republic. Through his relatives and acquaintances in his native town he is said to have gained the confidence of hundreds of persons, to whom, it is alleged, he sold 3,000,000 francs' worth of stock in a mining company which soon afterwards went into the hands of a receiver. While selling the mining stock he is also said to have opened two banks, one in Basel and the other in Zurich. The Swiss government charges him with fraud, embezzlement and misappropriation of funds intrusted to him.

**Heed the Cough That Hangs On.**

The seeds of consumption may be the cause and a cough that hangs on weakens the system. Foley's Honey and Tar Compound cures the cough, heals the inflamed membranes and strengthens the lungs. E. D. Rountree, Stillmore, Ga., says: "Lagrippe left me a deep seated, hacking, painful cough which Foley's Honey and Tar completely cured." City Drug Store, J. A. Obermeyer.

**WILL GIVE PLAY AT WOODSON.**

A home talent play, "Out in the Streets," will be given at Colton's hall in Woodson Friday evening, April 4, for the benefit of the Ladies' Aid society of the Christian church there. The Craig band will furnish music and as the cast has been well selected the event promises to be one of great interest.

**FAIR EXCHANGE**

A New Back for an Old One—flow a Resident Made a Bad Back Strong. The backaches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame that to stoop is agony. No use to rub or apply a plaster to the back if the kidneys are weak. You cannot reach the cause. Follow the example of this Jacksonville citizen.

W. E. Allen, 627 S. Prairie St., Jacksonville, Ill., says: "All I said in praise of Doan's Kidney Pills when I publicly recommended them in 1909 holds goods. I have had no kidney trouble since then. I have pains in the small of my back and was standing. The trouble seemed to make me feel all tired out. Finally I went to Armstrong's Drug Store and got a supply of Doan's Kidney Pills. After I had used one box my trouble soon disappeared."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## KNIGHTS OF PYTHIAS CONVENTION IN WINCHESTER.

L. B. Turner Re-Elected District Deputy—Beardstown To Be the Place of Meeting Next Year.

At the tenth annual convention of the Illinois domain, Knights of Pythias, held Tuesday afternoon at Winchester, L. B. Turner of this city was elected state district deputy, and Beardstown was fixed upon as next year's meeting place. Over a hundred members of the lodge were present. At the close of the afternoon session some resolutions were passed showing this convention in the opinion of the Pythians to have been one of the most successful ever held. Those attending from Jacksonville returned home Wednesday morning at three o'clock.

Saladin lodge of Winchester opened the convention Tuesday afternoon. The meeting was taken in charge by Grand Chancellor Charles M. Ono and Grand Keeper of Records and Seals, H. L. Caldwell, assisted by Grand Inner Guard J. J. Reeve of this city. Only two lodges of the district were unrepresented, Virginia and Chandlerville. Excellent reports for the year were forthcoming from most of the lodges and a thorough discussion of the state of the order in this district was conducted by the grand chancellor. Representative Smith of Beardstown reported the plans of the lodge at that place for a new building to be completed in time for the 1914 convention.

Following permission of the grand lodge it was voted to levy a five cent per capita tax for the expenses of the district meetings.

The county deputies elected for recommendation to the grand chancellor were as follows:

Cass—Walter L. Stanton, Beardstown.  
Morgan—Dr. G. M. Blair, Waverly.  
Scott—H. E. Kuhl, Winchester.  
Greene—Harry L. Knudson, Green field.

After luncheon served by Saladin lodge of Winchester, the meeting was reconvened for the evening session. At this session the rank of page was conferred by the Saladin degree staff upon four young Winchester men.

The hour until midnight trains were then spent in addresses by the leading members of the order present. These included Mr. Platt of Collinsville; J. W. Kettle, of Franklin; J. W. Stanley, of Roodhouse; A. J. Bell of White Hall; E. H. Kinney, of Beardstown; J. J. Reeve, grand inner guard of Jacksonville, Grand Keeper of Records and Seals, H. L. Caldwell and Chancellor Charles M. Ono. At midnight the meeting adjourned.

**ROBINSON SPRINGS WATER** gives permanent relief in Bright's Disease, Diabetes, Rheumatism, Dropsy, Gout, gall stones, indigestion and constipation. One case will prove our claim. Water is on sale at Chiles, Taylor's Grocery, Coover & Shreve, Obermeyer's and Robert Bros.

J. Thompson Sharpe, Agent

## MEXICAN ANNIVERSARY.

City of Mexico, April 2.—A brilliant passage of arms, in which Gen. Porfirio Diaz defeated a superior French force in these streets of Pueblo on April 2, 1867, was recalled today to all residents of the republic by the general commemoration of the anniversary. Business was generally suspended and the day was further observed with military reviews and numerous patriotic meetings.

During the brief period that Mexico was ruled by Emperor Maximilian, with the support of French soldiers, certain sections of the country stoutly refused to acknowledge the monarchy. Porfirio Diaz led the southern wing of those who opposed the intervention of the foreigners. For two months he had laid siege to the city of Pueblo, which was the most important place in southern Mexico. The fighting had been furious during a portion of this time, but the Mexicans had been unable to dislodge the French from their fortifications. Learning that Maximilian was sending reinforcements from the capital Diaz was spurred to a greater effort and on April 2 he attacked the town just before daybreak. He led the charge in person and dashed into the heart of the city with a small band of followers before the French recovered from their surprise at the audacity of the attack. A bloody fight followed in the principal square and resulted in a complete victory for the Mexicans.

**QUICK RELIEF FOR RHEUMATISM.**

George W. Koon, Layton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began to use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist.

**RATE PROTEST OF FARMERS**

Chicago, Ill., April 2.—An interstate commerce hearing on the minimum car load weights for shipments of potatoes from the northwest to eastern markets was held here today by Special Examiner George P. Boyle.

The minimum weight per car load was increased January 14 from 30,000 to 33,000 pounds at the request of the railroad companies. The farmers protested that they had already made their spring contracts on the basis of a 33,000 pound rate. The change entailed a big loss to them, they said. Special Examiner Boyle said that the rate probably would be put back to the 30,000 pound basis until the farmers' present contracts expire.

There is no case on record of a cough, cold or lagrippe developing into bronchitis, pneumonia or consumption after Foley's Honey and Tar Compound has been taken. The genuine is in a yellow package. Refuse substitutes. City Drug Store, J. A. Obermeyer.

**WHITE SOX ORGANIZE.**

The White Sox baseball team has organized for the season and will be managed by Frank Smith.

Twenty or players have been signed for try out and will start daily practice Monday. Several new men will be in the Sox line-up this season.

Manager Smith is working on the schedule and has several games booked with fast teams. The Sox lineup will be announced later.

## DEATHS AT SOLDIERS HOME

**A STRONG REFERENCE.**  
A young man recently applied  
for a position with a large printing  
house, and not having a letter of  
reference, offered his bank book. It  
showed a regularity of entries of de-  
posit. It was a very strong recom-  
mendation, indicating character and  
persistence, which finally secured for  
him a good position.

## THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

### RISE IN STOCKS MEETS WITH CHECK

**RELEASING SALES RESPONSIBLE  
FOR ACTION OF MARKET.**

**Depression of European Markets Al-  
so Tended to Check Advance—  
Money Was Easier—Call Rates Re-  
laxed Considerably.**

(By Associated Press)  
New York, April 2.—The rise in  
stocks was halted today. During the  
early trading prices were scaled  
down moderately, but later there  
was a general recovery and net  
changes were small. The advance  
of the last ten days, running from  
five to ten points in many cases, had  
reached sufficient proportions to in-  
vite releasing sales, which were  
largely responsible for the action of  
the market. Depression of Europe  
markets tended to check the advance  
here. Reviving apprehensions as to  
the Balkan situation owing to the  
attitude of Montenegro made it plain  
that the foreign situation still must  
be taken into consideration. With  
the passing of the April settlements  
and easier money conditions, it is  
expected that some of semi-govern-  
mental European banks may reduce  
their minimum discount rates, al-  
though no change in the bank of  
England's rate is expected tomorrow.  
Money was easier here. Call rates  
relaxed considerably from the high  
rates of the preceding two days and  
quotations for time funds and com-  
mercial paper were shaded. Rumley  
touched another low point today,  
dropping nearly five points to 37 1/2.  
Weakness of this issue was attrib-  
uted to the statement of a director that  
the dividend might be passed. Canning  
rubber and the local traction  
stocks were in demand at rising  
prices.

## CHATS WITH GREAT MEN OF THE CIVIL WAR

By Mrs. Gen. Pickett.

Copyright, 1913, by The Press Publishing Co. (The New York Evening World.)

SENATOR M. R. T. HUNTER

Mr. Hunter is well known as a great financier, an honest statesman and a man of strong reasoning power. But I will introduce him as I knew him when he would "drop in" informally at any time for a consultation with my uncle-in-law, his friend, a scholarly man, and a former law partner of Abraham Lincoln. "I didn't know that I was to meet strangers," he said one day when he had been induced to remain to dinner. "But when I do not know that a knowledge beforehand would have made any difference. For my dear friend, Mrs. C. C. Clay, says my hair is always frowzy, my vest always ruckled up and my shirt bosom making an unceasing effort to push my collar over my head. She kindly tones and favors her descriptions, however, by saying that of course my hat never fits any better than my clothes, because my head is so full of figures and brains that the factories could not afford to make one big enough."

"She is a devoted admirer of you and to be spoken of at all by her compliment," I replied.

"Yes, and just how we all come in for our share of criticism from friend and foe alike. I don't mind it, but our President is so sensitive that he cringes under the description and review given of his every decision and action by those who are like the seven blind men who described their elephant each from the point from which he touched the animal, whether leg, ear or trunk. Now, here is James Boykin abusing and blaming Mr. Davis for the loss of twelve thousand bales of cotton at Vicksburg and here's somebody else criticizing him for not confiscating and buying up all the cotton and purchasing ships with it, and another finding fault because he does not destroy the cotton entirely to prevent the Yankees from getting it."

"Poor Mr. Davis! He catches it for everything, from a bale of cotton to a batch of promotions. Toombs comes in on the cotton just now for his share of criticism, and they are abusing him for having put all his land in it instead of raising a crop of provisions to feed the starving army. It is the old story of the mule and the man and the wife and the club told by our most wise Aesop. I believe that when you've done the best that in you lies, and have the sanction of your own conscience it is the part of wisdom to close your heart to hurts and go ahead."

"One can't always do that. Sometimes the hurts are too painful," I said.

"We ought to give out neighbor the right to think as he pleases and to judge for himself. The trouble is my dear, we want our neighbors to think just as we do. Now there was our John C. Calhoun, one of the most generous, hospitable men that ever lived. When one of his guests, who

was an agnostic, declined to join in my family prayers, he called to his servant, 'James, saddle this gentleman's horse.' 'Seize de Kummel, please, suh, Mars John, but it's bed time en we gwine ter hab wedder dreckly. It's gun ter drizzle ret hard now en membe de Kummel meant he would rather say his prayers by himself.'"

"Both host and guest were guilty of the sin of bad manners," I said, "and the old negro was more gracious than either and had more religion. I wonder what would become of us should slavery be abolished and what would become of the colored people. You know, George Mason was opposed to slavery because it was an institution intended for the aristocrat, and the new-made vulgar people were unworthy of so sacred a trust."

Mr. Hunter was the youngest Speaker the House has ever had, being thirty years old when he first occupied that position. As Chairman of the Finance Committee he made a high reputation, and in after years was held by Mr. Wigfall to be the only man in the Confederacy who knew anything about money.

Mr. Toombs said that there were some brilliant financiers in the capital, but Mr. Hunter was the only one who had ever succeeded in getting ahead of Washington hotel and boarding-house keepers, a triumph which he achieved by having the pay of Congressmen fixed in secret session so that it might not be exactly covered by board bills.

In the Peace Conference Mr. Hunter was one of the Commissioners sent by the President of the Confederacy to treat with President Lincoln a movement which might have been successful but for a difference in the expression of the object of the meeting. President Davis desired peace "BETWEEN THE TWO COUNTRIES," while the President of the United States was equally anxious to secure peace "TO THE PEOPLE OF OUR ONE COMMON COUNTRY." A difference which prevented any discussion of the avowed purpose of the conference and resulted in a friendly conversation on various topics among a company of gentlemen who had been well known to each other in happier days and who remained friends on all subjects except the ONLY ONE important to the occasion.

In President Lincoln's hurried visit to Richmond after its fall Mr. Hunter was one of the few of whom he asked, being very desirous of conferring with him on questions of immediate moment to the country. Unfortunately Mr. Hunter was absent from the city. The President at once returned to Washington and to the tragic death which threw a gloom over the whole nation and resulted in disasters which will overshadow our national history for all time to come.

## HOW TO MARKET THE PRODUCTS OF THE FARM

Important Conference Will be Held in Chicago Soon.

In the first national conference on Marketing and Farm Credits, which is to be held in Chicago, April 8, 9 and 10, 1913, the stage is set for the greatest gathering of prominent and well-known men in all lines of professional and business activity ever assembled to bring about improved economic conditions for producer and consumer. It marks the beginning of a united effort on the part of the American people to work out some solution whereby a more just and equitable division of profits may be enjoyed by producer and consumer, proportional to the services rendered by the individual.

The opening session will be given over to a brief presentation of the problems in hand, so far as marketing is concerned. The following three sessions will consist in presenting workable concrete methods of solving these problems. One session will be given over to transportation problems and the work which the federal government can and should do through the establishment of a national bureau of markets. Another session will be devoted to the problem of farm credits, with studies and explanations of farm credit systems in Europe and how they may be adapted to conditions in this country.

### Program.

Morning Session, April 8. "Waste in Distribution," Charles R. Van Hise, president University of Wisconsin; "How the Government Has Allocated Distribution of Farm Products," Senator Obadiah Gardner, master Maine State Grange; "Distributing food products," E. M. Tinsley, director Right Relationship league; appointment of committees.

Afternoon Session. "Educational Aids to Organization," H. J. Waters, president Kansas Agricultural college; "Educational Aids to Organization," S. E. Mezes, president University of Texas; "The Problem of Organization," C. S. Barrett, president National Farmers' Educational and Co-operative Union of America; general discussions: "Fruit Growers," P. J. O'Gara, district plant pathologist, Rogue River Valley, Oregon; "Grain Growers," E. G. Dunne, Mason City, Iowa; "Growers of Beef," State Senator A. L. Ames, Buckingham, Iowa; "Dairy Farmers," Ed. Webster, associate editor "Hoard's Dairyman"; "Cotton Growers," E. W. Kirk-

patrick, former president Texas Farmers' Congress.

Price, dean College of Agriculture, Ohio State University; Dr. C. J. Owen, managing director Southern Commercial Congress; business session.

SALE OF HORSES AND MULES. W. H. Fuller will have a sale of horses and mules at Packard's livery barn Saturday, April 5, commencing at 1 o'clock.

Joseph Lindsay of Litterberry was a visitor in the city Wednesday.

## STATE INTRODUCES STRONGEST EVIDENCE IN PFANSCHMIDT CASE

Blood Stained Clothes Found in Vault Near Prisoner's Tent Examined By Jury.

Quincy, Ill., April 2.—The strongest evidence which is in the state's possession in its case to prove Ray Pfanschmidt guilty of the murder of his father, mother, sister and Miss Emma Kaempfen, was given to the jury today. The blood stained khaki clothes found in the vault near Ray Pfanschmidt's tent were put in evidence today. After the jury had examined them, Dr. Ludwig Hektken of Chicago and Dr. George Sargatz of Springfield, Ill., stated positively that the spots there on were human blood. A bloody axe found on the Pfanschmidt farm and a dollar bill said to have been given to Joseph Eakins by Ray Pfanschmidt also had traces of human blood, according to the same experts. The remainder of the evidence today corroborated that given yesterday of the tracks of buggy wheels and the imprints of horses shoes tallying with those of the buggy and small horses of Ray Pfanschmidt. These tracks were found in the Pfanschmidt barnyard on the morning of the discovery of the fire. Ray Pfanschmidt continues to be in good spirits the only concern he shows being in his continued conferences with and suggestions to his attorneys as they cross examine the witnesses for the state.

### Look to Your Plumbing.

You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by all dealers.

### AEROPLANES MEET IN MAY.

Leon Friedman, representing the Motordome Company of San Francisco was in the city yesterday and stated last night that his company would give two days of motorcycle, auto and aeroplane racing here during the last week in May. This same company conducted a two days meet here early last summer and made a successful record of flights the first day. Untoward events marred the second day.

### REFITTED OLYMPIC SAILS FOR NEW YORK.

Southampton, April 2.—The mammoth steamship Olympic, refitted and reconstructed at a cost of more than \$1,000,000, with a view to making her the safest vessel afloat, sailed today for New York. The great steamship, which still retains the honor of being the largest vessel in the world, was greeted with a roar of salutes from the whistles of all the

craft in the harbor as she left her dock and moved majestically out into the channel.

Experts pronounce the reconstruction work on the Olympic to be one of the wonders of modern engineering. The original double bottom of the vessel has been extended well above the water line, so that now the ship has what may be called two complete hulls, one within the other. As additional safeguards she has been fitted with a number of extra bulkheads, some of which extend to the decks forty feet above the water line.

### Recommended for a Good Reason

C. H. Grant, 230 Waverly St., Peoria, Ill., says: "Backache and congested kidneys made me suffer intense pains. Was always tired and floating specks bothered me. Took Foley Kidney Pills and saw big improvement after third day. I kept on until entirely freed of all trouble and suffering. That's why I recommend Foley Kidney Pills. They cured me." City Drug Store, J. A. Obermeyer.

Typical Floor Plans.

Offices will be Arranged to Suit Tenants

### PRICES GOOD AT MRS. STILL'S PUBLIC SALE.

Cows Brought as High as \$75 and Brood Sows \$43.50.

A sale was held Wednesday at the farm of Mrs. Robert Still, one-half mile north of Murrayville. Mrs. Still will move to Murrayville, where she has purchased property. A good crowd was in attendance and prices were very good. The articles sold included implements, milch cows, horses, mules, brood sows, pigs, grain and hay. John E. and C. Justice Wright were the auctioneers and W. B. Wright the clerk of the sale. Dinner was served by the Ladies' Aid of the Murrayville M. E. church. The implements sold all went at good prices. Horses went from \$60 to \$172.50, the latter figure being the price of a mare purchased by Thomas Doyle. Alfred Land bought a driving horse for \$137.50. A span of mules went to John Burns for \$300 and a yearling mule was sold to Leonard Fitzsimmons for \$125. Cows brought from \$62.50 to \$75, and brood sows from \$30 to \$43.50. Pigs sold at \$10.50 a head. The selling price of corn in the crib was 41 cents and seed corn 75 cents to \$1 per bushel. Oats brought 36 cents per bushel and hay 48 cents per bale.

**T. L. CANNON'S MEAT MARKET.**  
The most sanitary grocery and meat market in the city. We deliver, we credit, we treat all alike; we handle government inspected meats. We inspect every piece after being shipped. We keep two kinds of microbes—one to eat up the other as soon as it is hatched, so you will be safe. Our groceries are all new; no old stock. We are in the store at all times to see that it is run on a clean, bright and sanitary basis. We are sure if you give us your trade you will keep well, and if sick get better. T. L. Cannon.

**TO VISIT BATTLEGROUND.**  
Harry White, a prominent farmer of Pittsfield, was in the city yesterday and left in the afternoon via the Chicago & Alton for St. Louis. From St. Louis Mr. White will take a steamer and go up the Ohio and Tennessee rivers to the Shiloh battleground, where a party of old soldiers are to make a visit.

**MARRIAGE LICENSES.**  
Lawrence D. Sibert, Jacksonville; Jessie Duncan, Jacksonville; George J. Orear, Jacksonville; Elnora W. Brown, Jacksonville.

### RATE ON SOUTHERN COAL IS INCREASED BY BURLINGTON

Charge Now Is Eighty Cents Per Ton Instead of Seventy Cents—Springfield Mines Wanted Change Made—Southern Coal Is Getting Business Formerly Their's.

The Burlington has just given notice of an increase into Jacksonville of the rate on soft coal from the Cartersville and Franklin county districts in Southern Illinois. The rate has been seventy cents per ton and the new rate is eighty cents, an increase of ten cents per ton. Local coal dealers are preparing to take the matter before the Illinois Railroad and Ware house commission in order to have the old rate restored if possible. The present rate of Springfield coal is fifty four cents per ton and the new rate from the Springfield mines gives the Springfield mines a differential of twenty-six cents per ton in their favor. It is understood that the Springfield mines have been trying for months to get the rate into Jacksonville from the Southern fields increased because Southern coal has been making such heavy inroads upon business which formerly went to the Springfield mines. It is said too that the Wabash road has been in favor of increasing the southern tariff because it does not tap that field in such a way that it can compete for the Jacksonville business at seventy cent rate. The Wabash can get coal from the Southern field at Johnson City but it is a very long haul from that city into Jacksonville around by the way of Decatur and there is no money in it at the rate which has been in effect.

When it comes to hauling coal into Jacksonville from Springfield, the Wabash has the advantage of other roads in the length and directness of the haul. The C. & A. since the establishment of the Murrayville cut-off has a more direct line for the coal traffic here than used to be the case but still must haul coal a longer distance than the Wabash. The rate from Springfield here of course is 54 cents per ton whether the coal is routed by the Wabash, C. & A. or C. P. & St. L.

For the past two years the Burlington has been making heavy inroads on the coal business of the other roads into Jacksonville owing to the increasing consumption of Southern Illinois coal and the ten cent increase may serve to curtail shipments somewhat. This is not likely to happen however, as consumers who use southern coal once want it again.

The probable result will be that the Burlington will haul just as much southern coal into Jacksonville and be richer to the extent of ten cents per ton and the public using the coal will be ten cents per ton poorer. It is a fact however, that while southern coal in Jacksonville has sold at about 25 cents per ton higher than Springfield or Springfield sub district coal that in other cities the difference in price is usually fifty cents and some times seventy five.

### EARL W. JACKSON DIES IN SPRINGFIELD

Former Resident of Jacksonville Passes Away Wednesday.

(Special to the Journal.)  
Springfield, April 2.—Earl W. Jackson, a former resident of Jacksonville died here today at the family residence on East Capital avenue, at the age of 20 years. He had been suffering for several months from tuberculosis. Before coming to this city two months ago he was employed in the Capps Woolen Mills at Jacksonville and the family resided at 729 North Prairie street. He is survived by his mother, Mrs. Jane Jackson, and four sisters, Ida May, Lydia Ruth, Mary Emma, and Dorothy Elizabeth, also one brother Robert, all of Springfield. No funeral arrangements have been made.

**WEDS ARMY LIEUTENANT.**  
Asheville, N. C., April 2.—The wedding here today of Miss Emma Guder and Lieut. Robert L. Eicheberger, U. S. A., was attended by a number of persons of prominence in military and official circles. The bride is the daughter of Judge and Mrs. Guder of the canal zone, and a niece of Congressman James M. Guder.

**MARRIAGE LICENSES.**  
Lawrence D. Sibert, Jacksonville; Jessie Duncan, Jacksonville; George J. Orear, Jacksonville; Elnora W. Brown, Jacksonville.

### NEXT FARMERS' INSTITUTE WILL BE HELD IN JACKSONVILLE

Decision Reached At Conference of Directors Held Wednesday—Chamber of Commerce Will Co-operate.

A call meeting of the directors of the Morgan County Farmers' Institute was held Wednesday in the assembly room of the Ayers national bank building at 12:30. The purpose of the meeting was to decide on the location of the next farmers' institute to be held in this county. The decision was in favor of Jacksonville.

An invitation had been given to the Chamber of Commerce and the officers sent Secretary Fritchey as their representative.

Some of the directors of the institute had the feeling that the people of Jacksonville are more or less unconcerned whether the one big institute was held here on in some other part of the county. The secretary of the Chamber of Commerce endeavored to make it clear that the business men through their rural affairs department were greatly interested in all things pertaining to the agricultural development of this community and they desired to encourage and co-operate with the farmers' institute.

The directors had considered a number of places outside of this city for the holding of the next institute, because they believed there was more interest in such localities. After hearing that the Chamber of Commerce was willing to work with them the directors unanimously voted to hold next year's institute in Jacksonville.

A committee consisting of the president, Edward Scott, Secretary H. P. Joy and Supt. Chas. H. Story was chosen to confer with the executive committee of the rural affairs department and also to outline program.

Director A. P. Grout for the twentieth congressional district, will meet with representatives from the ten counties composing this district at the Dunlap next Monday night and will decide on the time of this county's meeting. It is hoped that some date will be chosen which will permit holding the poultry show, a corn carnival, at which the boys' prize corn would be exhibited and the farmers' institute all at the same time. This scheme would strengthen each event instead of having them scattered throughout each month of the fall causing unnecessary work and expense.

**MASONS, ATTENTION.**  
Jacksonville lodge No. 570, A. F. and A. M., will hold a regular meeting this evening at 7:30. Visiting brethren welcome. Warren Case, W. M. P. V. Coover, Sec. Pro Tem.

### ILLINOIS COLLEGE BASEBALL SCHEDULE.

Manager Russell of Illinois college announces the following baseball schedule for the coming season. It is not yet entirely finished but will be substantially as given. Although the team this year will contain many untried men, the way in which interest is being shown, makes the prospects of a successful season good. The schedule:

April 17.—Wesleyan at Jacksonville.  
April 24.—Shurtleff at Jacksonville.  
May 1.—Eastern Illinois Normal at Jacksonville.  
May 3.—Bradley at Jacksonville.  
May 9.—Lombard at Jacksonville.  
May 10.—Bradley at Peoria.  
May 14.—W. and V. at Jacksonville.  
May 17.—Shurtleff at Alton.  
May 21.—Carthage at Carthage.  
May 22.—Lombard at Galesburg.  
May 23.—W. and B. at Alton.  
May 30.—Millikin at Decatur.  
May 31.—Eastern Illinois at Charleston.  
June 7.—Wesleyan at Bloomington.  
June 9.—Millikin at Jacksonville.

### MATRIMONIAL

**Schofield-Angelo.**  
Gardena, California Reporter: A quiet wedding took place at the home of W. H. Schofield on Estrella Ave., Sunday afternoon, March 23, when Mr. Schofield's nephew, Mr. Curtis T. Schofield of Brown, Cal., and Miss Robertine Angelo of Jacksonville, Ill., were united in marriage. Rev. Chas. D. Lewis of the Methodist church read the service. Besides the bride's mother, there were present only few relatives and intimate friends of the family.

The young couple left Wednesday for their ranch at Brown, Cal., where they expect to make their home. The best wishes of their many friends go with them for a long and happy married life.

**Sibert-Duncan.**  
Lawrence Sibert and Miss Jessie I. Duncan were married by Rev. P. A. McCarty at his residence on West College avenue, Wednesday evening at 8 o'clock. The groom is the son of Mr. and Mrs. Fred W. Sibert of West College street. Mrs. Sibert is the daughter of Mr. and Mrs. Robert Duncan of North Church street. Both young people are employed in Ward's book bindery. They each have a wide circle of friends who will give them the best of good wishes. Their home will be at 410 South Clay avenue.

**CAIRO OPERATORS WORKING.**  
J. G. Howells, district manager of the Central Union Telephone company learned Wednesday that the operators at the Cairo exchange were at work and were sleeping in the building. They have a boat anchored to the building, so that in case the water does happen to come in, they will have a means of escape.

**THE TEMPERATURES.**  
The temperatures for Wednesday, according to G. H. Hall, weather observer at Alexander, were: maximum 81, minimum 50.

### MORTUARY

**Pastures.**  
Mrs. Eliza Pastures died at the Jacksonville state hospital Wednesday morning at 10:30 o'clock. The remains were taken to the Reynolds undertaking establishment and were taken to Springfield for burial.

**Myers.**  
Funeral services of Mrs. Mary Jane Myers were held Wednesday afternoon at 2:30 o'clock at the late residence, 483 South East street, in charge of Rev. F. A. McCarty. Mrs. T. H. Rapp, Mrs. A. C. Baldwin and Rev. Mr. McCarty sang "Safe in the Arms of Jesus." There was an abundance of beautiful flowers, among them a cross and pillow from the family and a pillow sent by the Planters hotel of Louisiana, Mo. These were cared for by Mrs. Alice Wyatt, Mrs. Nellie Read and Miss Ols Mann.

Interment was made in the Jacksonville cemetery and the bearers were: James Self, John Minter, William Timmerman, John Houser, J. W. Hawkins and William Tiff. Among those from out of the city to attend the funeral were Mrs. A. T. Fuller of the Planters hotel, Louisiana, Mo.

Mrs. Myers died at her home on South East street Monday morning at 11:30 o'clock after an illness with diabetes. Mary Jane Lashmet, a daughter of Samuel and Sarah Lashmet, was born February 23, 1856 in Salem, N. C. She was married in Mexico, Mo., April 14, 1875 to George Schanning and they were the parents of three children: Mrs. A. T. Fuller of Louisiana, Mo., Albert and Mrs. A. L. Wood of this city. Mr. Schanning preceded her in death. September 19, 1886 she was married to W. H. Myers, who survived her, together with one son, William A. Myers. She is also survived by one sister, Mrs. Albert Jones of Waverly, Mrs. Myers united with the Central Christian church some years ago.

### ADVERTISING ENVELOPES

**FOR CHAUTAUQUA**  
Secretary Fritchey will call on merchants today or tomorrow, to take orders for the Chautauqua envelopes which the Chamber of Commerce are having printed. At least 100,000 must be ordered to obtain them at \$1.30 per thousand. Mr. Fritchey said yesterday quite likely merchants will not immediately need more envelopes, but the Chamber of Commerce hopes all the merchants will be willing to boost our chautauqua to the extent of purchasing one thousand at the same price granted. They will be very attractively printed.

### PILGRIM'S PROGRESS LECTURE.

A large audience was present Wednesday night at Grace M. E. church to hear the last of a series of illustrated lectures on Pilgrim's Progress, by the pastor, Rev. J. W. Miller. The lecture was greatly enjoyed and two solos, "Nearer My God to Thee" and "Throw Out the Life Line," illustrated, sung by Miss Stella Shuff, were most effective.

## TAYLOR'S GROCERY

A Good Place to Trade.

This insures a full assortment of all new goods at the opening spring price, many of them lower than last year. Order early, as his stay is limited.

# Taylor, the Grocer

### RIVER AT CAIRO IS STILL RISING

(Continued from Page One.)

Official report from Washington that the crest of the flood would not reach Cairo for five more days.

**Old Time Residents Alarmed.**  
With the gauge standing at 54.2 at 4 o'clock this afternoon nearly two-tenths higher than registered by any previous flood waters, old time residents see cause for decided alarm. If the government forecast is correct. The highest previous reading was last year, according to forecaster, R. T. Lindley, the gauge at that time registered 54.05. This, until this afternoon, when his official reading was taken, stood as the record for Cairo. Rumors that dynamite was to be used on the levee at Mound City and others that small pox had broken out in negro quarters here, caused alarm for a time, but they were soon run down and pronounced false. There has been small pox here lately but the cases have been taken care of in the isolation hospital three miles out of the city. One of the quarter boats belonging to the government which the authorities here have been anxious for was brought around in front of Cairo today from the Mississippi river and will be used for housing purposes in case of emergency.

**Drainage District Overflowed.**  
The drainage district north of Cairo is completely overflowed. For several miles north of the big levee and a mile beyond the Illinois Central and Iron Mountain railroads are all out of commission completely cutting the city off from the outside world.

**Troops Forced To Move.**  
Captain Morton, who has been in charge of two companies of soldiers there, conducting the work of filling sandbags got word to Colonel Moriarity that the water was closing up on them, and that they must get back to Cairo by tomorrow morning. Arrangements were immediately made their transportation here. Major Buckner telegraphed from Louisville to the relief committee that he was on the way to Cairo with boats and barges. He comes at the order of Major Logan, assistant to Major General Wood, chief of staff at Washington.

On account of the danger at Mound City, a squad of naval reserves was sent there in a cutter tonight to guard the city.

Another squad of reserves was sent on the Steamer, City of Cairo, to O'Brien's Landing where many persons were said to be stranded. None of the rescue parties have been heard from up to a late hour tonight. At 10 o'clock tonight the official gauge reading was 54.5 rising.

### PREDICTS ALMOST TOTAL OHIO WHEAT CROP LOSS.

Wooner, O., April 2.—Prof. W. H. Cramer of the state agricultural experiment station here today predicted the almost total ruin of the Ohio wheat crop, as a result of the recent flood. "The only way for farmers to avert losses of millions," he said, "is to plant the ground in other crops."

### PLAN WORK FOR THE BIG CHAUTAUQUA

MEMBERSHIP OF VARIOUS COMMITTEES IS MADE KNOWN.

New Features Have Been Outlined and Purpose is to Have Great Chautauqua and Festival Here in August.

Work has begun with interest in making preparations for this year's Educational Festival and Chautauqua to be held at Nichols Park August 21-31.

Dr. Black, chairman of the executive committee has been having conferences with the officers of the Chamber of Commerce, chairmen of all sub-committees and together they have chosen the following committees.

**Executive Committee.**  
Carl E. Black, chairman; Rev. J. R. Harker, Pres. Rammelkamp, Rev. J. W. Crowe, Mayor George W. Davis, Bernard Gause, George E. Doying, W. A. Furr, W. L. Woolston, C. P. Gillett, John Merrigan, Fletcher Hopper, J. W. Walton, Judge Thompson, Charles A. Rowe, J. G. Reynolds, Judge E. P. Brockhouse, Supt. Montgomery and G. W. Brown.

**Advertising Committee.**  
Fletcher Hopper, chairman; Judge E. P. Brockhouse, Henry Frisch, G. E. Doying, Carl S. Hillerby, Paul Fritchey and J. W. Walton.

**Ticket Committee.**  
Charles Knollenberg, chairman; Dr. Kopperl, A. C. Rice, Judge E. P. Brockhouse, Miss Anne Henriksen, Mrs. J. K. C. Pierson, J. W. Merrigan, R. C. Reynolds and W. T. Brown.

**Committee on Grounds, Tents, etc.**  
J. G. Reynolds, chairman; Lee P. Allcott, T. M. Tomlinson, W. J. Brady and Harry Myers.

**Committee on Exhibits.**  
Bernard Gause, chairman; Wm. Hehl, C. C. Beeryman, George Douglas, T. H. Buckthorpe, D. T. Heimlich.

**Program Committee.**  
Carl E. Black, chairman; J. R. Harker, W. A. Furr, J. W. Crowe, C. H. Rammelkamp, Mayor George Davis and Supt. G. W. Montgomery.

**Finance Committee.**  
Carl E. Black, Fletcher Hopper, Bernard Gause, F. J. Andrews, J. G. Reynolds, Charles Knollenberg, and Paul Fritchey.

It will not be necessary for the executive committee to hold many meetings as most of the work will be delegated to the various sub-committees with power to act.

The chairman of each of the committees and the President and Secretary of the Chamber of Commerce will constitute the Finance Committee. This committee will meet frequently in order that chairman Black can keep in touch with the whole situation and know what each committee is doing.

A new committee on exhibits has been added, with Bernard Gause as its chairman. Their plans are to have many new features which will prove great drawing attractions for this year's chautauqua.

### SOCIAL EVENTS.

The members of the Caritas Girls' club met Tuesday evening at the home of Misses Bessie and Grace Hadden on Caldwell street. There was a good attendance and an interesting meeting was held. At the conclusion of the literary program a social hour was pleasantly passed. Light refreshments were served.

Members of the Orear-Brown wedding party enjoyed a dance last night at the Peacock Inn, Johnson's orchestra furnishing the music. A number of friends from out of the city here to attend the wedding were among the guests.

The home of Mr. and Mrs. James McBride on East North street was the scene Tuesday evening of a pleasant gathering of about twenty-five friends who spent the time with progressive euchre and music. Light refreshments were served.

### RAISED FLOOD RELIEF FUND.

At the Sunday school of the Riggs-ton Methodist church, of which Rev. V. P. Mitchell is pastor, \$18.35 was raised for the benefit of the flood sufferers. The money will be forwarded through the Methodist conference.

### DESCRIBES FLOOD CONDITIONS

Mrs. Martha Capps Oliver Receives Letter From Her Sister Mrs. John M. McCabe From Delaware, Ohio.

A graphic description of the flood condition in Delaware, Ohio, is furnished in a letter received by Mrs. Martha Capps Oliver of this city from her sister Mrs. John M. McCabe. Delaware is a city of 9,000 people twenty-four miles north of Columbus and the seat of Ohio Wesleyan university.

Delaware, Ohio, March 31, 1913.

Dear Sister:  
Your last note just here dated the 27th. I hope my letters to you have reached you before this. I would have wired it if it had been possible. As it was, the telegraph office was in the flooded district.

The situation is bad enough but not as bad as reported in some of the papers. For instance, none of the Ohio Wesleyan university buildings were injured.

Yesterday in the English Lutheran church occurred the funeral of five members of a family of six, one body being still unrecovered. There were five bearers, three negroes and two white people. Today at William street will occur the funeral of a mother and two daughters. Saturday, a father and son were buried together.

One young lady who was drowned was a friend of mine. She clerked in one of the dry goods stores and was particularly attractive and pleasant. I can't get over the horror of her death. She with one of her aunts and a cousin had just been rescued from the house (which was partially destroyed) in a boat, when the swift current whirled the boat around and tossed it against a telegraph pole, upsetting it and drowning both of the girls. They have not yet found the bodies of my little friend. Her aunt held on, as she thought, to the other girl as long as she could, but found to her horror that what she had supposed her dress was nothing but a water soaked piece of carpet. The girl had been swept away.

In reply to your question as to supplies—we are not in need of any. We were without electric light, gas or city water for a week, but had enough coal and wood to keep warm. Now we have the gas and water again, although the pressure in the gas mains is very low.

In Delaware county about three million dollars worth of bridges were destroyed. Many of the merchants here have lost everything.

Lovingly, Your Sister.

S. D. Miller, an employee at the C. P. & St. L. shops, is suffering from an injury to his eye which he received Wednesday.

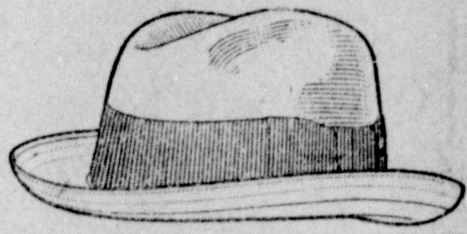

W. H. Clark, who has been conducting the fruit stand on East State street, formerly run by Clark & Devere, has sold out to Cannon Bros.

## THE KINDEL KIND

DAVENPORT BEDS and Divanettes are the latest and best Davenport beds produced, and one of the most useful articles ever offered for the home. We have just received a large shipment of these in all the finishes, and it would afford us much pleasure to show you their merits and tell you why they received the highest award for Davenport beds.

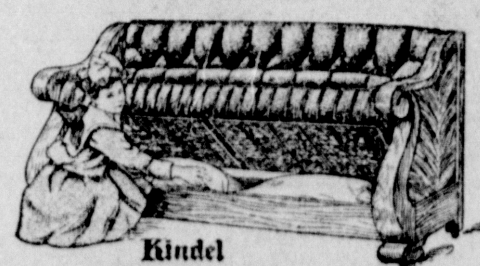

Kindel

The back simply rolls forward.

Kindel

Kindel

Has a roomy wardrobe under seat.

Kindel

**UTILITY**—Always ready. Can be changed from Perfect Davenport to Perfect Bed without removing from the wall.

**CONVENIENCE**—Can be readily taken apart for moving, and is easily set up again.

**SIMPLICITY**—So simple that a child can operate it, and there are no complicated parts to get out of order.

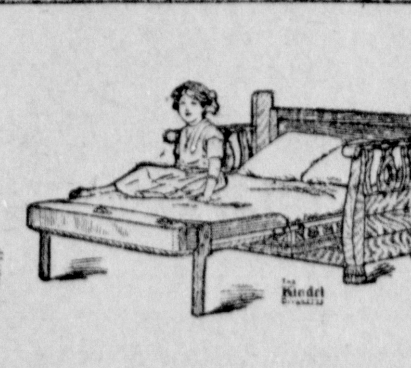

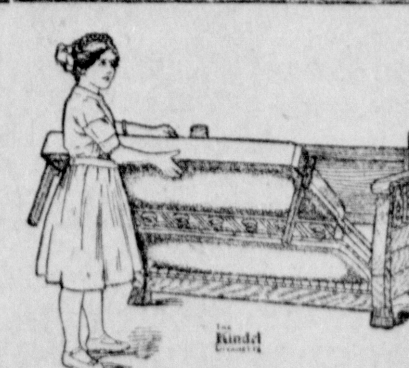

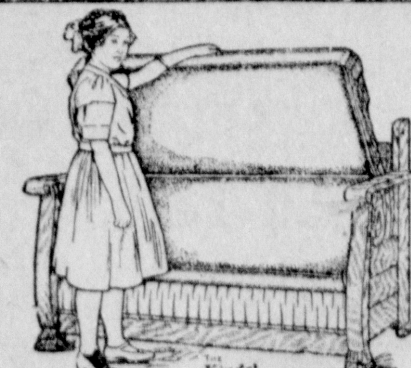

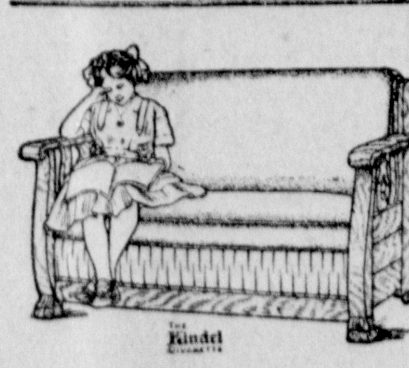

**SPRINGS**—A bed can be no better than its springs, hence we use only the best oil-tempered steel wire "Long Cone Coils."

**UPHOLSTERY**—Is protected by cushions automatically reversing bringing mattress uppermost as bed.

**FILLING**—Mattresses and cushions are filled with Kindel's hygienic felt. Comfortable and durable.

**BEDDING**—Always in place, concealed from view during the day, but is ready for use at night.

**ECONOMY**—It costs no more than the antiquated Davenport, nor as much as the ordinary bed of equal grade, notwithstanding its unquestioned superiority.

The KINDEL Divanettes are made with a reclining back, comfortable spring edge seats, luxurious upholstery, splendid proportions and do not require the space for the ordinary Davenport.

You Need the KINDEL in Your Home.

# ANDRE & ANDRE

New home furnishings in all departments of this store ready for your inspection.

We have just received a carload of brass and iron beds and springs of the famous "Simmons Quality."—See them.
